### ECRRP, Project Implementation Strategy

Local Government Engineering Department (LGED) under the Ministry of Local Government, Rural Development and Cooperatives (MOLGRD&C) is responsible for the overall execution and implementation of the project. LGED has established a Project Management Unit (PMU) headed by a Project Director and other associated staffs both at LGED HQ and Field Offices. They are responsible for carrying out day-to-day project activities. They are also assisted by management, design, supervision, financial management, environmental and social management, consultant, institutional development expert and social scientist etc. A Project Co-ordination and Monitoring unit (PCMU) under Planning commission is assigned for responsible the overall coordination and monitoring of project activities.

**ECRRP, Project Success Story**  
Provide safe shelter to human being and their resources including domestic animals during natural calamities like Supercyclone (sidr) and tidal surge. The project has been constructing of new cyclone shelters, improvement of existing shelters and construction/re-construction of road, bridge and killas. Better road will help in rapid movement of the people to reach shelter during cyclone. Road will also help in easy movement of agricultural inputs, marketing of agriculture products. The project will contribute to increase rural incomes, to alleviate the poverty for women and men and to enhance the efficiency of the rural transport and trading system. The project will create about 73 lakh (App) man-days of employment opportunities for the rural people through construction activities. Labor-intensive methods will be adopted in implementing the project activities. It is expected that employment will be generated for the local poor due to implementation of the project.

19. After clicking the **Add Image** link following window will appear where you can upload four images at a time. Click **Browse** button to select images (image size must be less than 1MB) and then click the first **Save** button to upload them to the photo gallery. After uploading, you can see those images listed below with **caption** text box. Write or update caption to the caption box which is in the left side of every image. Then click the second **Save** button to save those captions. To delete images, just select the delete checkbox of every image that you want to delete and then click that second **Save** button to delete them.

Output of the Web Portal will be as following:

20. Click on the **Project Menu> Project Details> Add Description> Add Donor** to select project donor from the donor list. After selection click the **Add** button below to update donor information.
