I. INTRODUCTION

A. Background

1. The Asian Development Bank (ADB) supported Coastal Towns Infrastructure Environmental Infrastructure Project (CTEIP) in 10 coastal towns, that effectively commenced on September 2014 with scheduled completion on June 2022. As a continuity of the CTEIP project, ADB extended its support to Coastal Towns Climate Resilience Project (CTCRP) which will strengthen climate resilience and disaster preparedness in 22 (twenty-two) vulnerable coastal *Pourashavas* (secondary municipal towns) of Bangladesh. The towns were selected based on their vulnerability, population size, density, and level of past investments. The project takes a holistic and integrated approach to urban development and will (i) provide climate-resilient municipal infrastructure, and (ii) strengthen institutional capacity, local governance, and knowledge-based public awareness, for improved urban planning and service delivery considering climate change and disaster risks. Key infrastructure investments include (i) drainage, (ii) water supply, (iii) sanitation, (iv) cyclone shelters, and (v) other municipal infrastructure including emergency access roads and bridges, solid waste management, bus terminals, slum improvements, boat landings, and markets. Investments will benefit the poor and women. The MLGRDC acting through its Local Government Engineering Department (LGED) will be the Executing Agency. *Pourashavas* are the implementing agencies of the project.

2. Coastal towns are particularly at risk from the impacts of climate change due to high levels of poverty and limited capacity of *Pourashavas* (urban local governments) to invest in resilience. The *Pourashavas* lack resilient infrastructure, clubbed with haphazard urbanization, lack of stormwater drains, poor solid waste management system further worsens the condition of these towns. Most of the coastal towns are situated on the riverbanks of low-lying tidal zones at an average elevation of 1.0–1.5 meters (m) from the sea level¹ and coastal flooding is a key hazard faced by these towns. Inadequate basic municipal infrastructure to respond to increasing climate risk threatens both quality of life and the economic growth of coastal towns. This calls for an integrated approach for coastal town development that promotes risk-informed planning and investment for building resilience.

B. Project Description

3. **Output 1: Municipal infrastructure for resilience improved.** Output 1 will support to develop priority municipal infrastructure and essential services that are critical for improving climate and disaster resilience and local economic development in 22 project towns². Output 1 includes (i) elderly (older persons), women, children, and persons with disabilities friendly cyclone shelters constructed with early warning system; (ii) emergency access road to cyclone shelter upgraded or constructed; (iii) climate resilient infrastructure for improved urban flood risk management such as stormwater drainages, nature-based solutions, water bodies restoration, and integrated waste management (IWM) developed; (iv) roads with stormwater drainages, bridges and culverts rehabilitated or constructed for improved connectivity and access to emergency services in the event of disasters triggered by natural hazards; (v) gender responsive and socially inclusive urban public spaces improved; (vi) slum improvement program implemented; and (vii) Elderly (older persons), women, children, and persons with disabilities (EWCD)-friendly sanitation facilities constructed for poor households. Output 1 will also support development of EWCD-friendly socioeconomic infrastructures including (i) local

¹ Sowmen Rahman and Mohammed Aatur Rahman. Climate Extremes and Challenges to Infrastructure Development in Coastal Cities in Bangladesh. Volume 7, March 2015, Pages 96–108

² The towns which are selected based on climate risk and vulnerability assessment screening process of 11 districts in coastal areas, are: Bagerhat, Bakerganj, Banaripara, Betagi, Bhedarganj, Borhanuddin, Chalna, Charfesson, Gournadi, Jhalakathi, Kolaroa, Kuakata, Lalmohon, Morelganj, Mehendiganj, Muladi, Nalchiti, Paikagacha, Patharghata, Patuakhali, Swarupkathi, Zanjira.

markets; (ii) bus terminals; and (iii) other priority roads, bridges, culverts, and boat landing stations.

4. **Output 2: Resilient livelihoods enhanced.** Output 2 includes: (i) climate vulnerable households covered in the graduation program in six project towns; (ii) training of women, including person with disabilities, to increase skills for resilient livelihood; and (iii) documenting vulnerable households' inventories of productive assets and facilitating access to insurance. This will also aid poor and vulnerable households from the effects of the COVID-19 pandemic.³

5. **Output 3: Institutional capacity, governance, and climate-awareness strengthened.** Output 3 includes (i) risk-informed urban development plans and poverty reduction action plans of project towns submitted to *Pourashavas* council and ensuring development activities aligning with the risk-informed urban development plans; (ii) training of staff of LGED and *Pourashavas*, including 90% of eligible women staff, for increased knowledge on GESI-responsive climate and disaster risk assessment to inform urban development plans and development control regulations linked with hazards; (iii) training of LGED and *Pourashava* staff, including 90% of eligible women staff, for increased knowledge and capacity on green and nature-based solutions (NbS); (iv) the operationalization of disaster management committee on disaster preparedness measures, cyclone shelter management committees, and standing committees on women and children's affairs, poverty reduction and slum improvement in project *Pourashavas* for improving municipal governance and sustainable service delivery; (v) adapting revenue enhancement plan by each project *Pourashava*; (vi) the establishment of functioning computerized tax records and billing systems; (vii) the approval of annual Gender Equality and Social Inclusion (GESI)-responsive operations and maintenance manual (O&M) plans by each project *Pourashava* and allocation and spending of at least 75% of the required annual budget; and (viii) developing GESI - responsive and socially inclusive urban space guidelines. Output 3 also supports enhanced public awareness, behavior change, and community mobilization in light of emergencies such as the COVID-19 pandemic and cyclone Amphan in 2020. It will also support training and capacity building of LGED and *Pourashavas* to institutionalize information technology-based remote monitoring through strengthening LGED's geographic information systems section, monitoring, and evaluation unit, and PMU.

C. Implementation Arrangements

6. The MLGRDC, acting through its LGED is the Executing Agency. The Project Management Unit (PMU) at the LGED is headed by a Project Director (PD), who is supported by two Deputy Project Directors (DPDs) overseeing safeguards and gender. Deputy Project Director (Executive Engineer) CTCRP is the Safeguard focal person from PMU. At PMU level, project staff (LGED engineers) are in place, however they are not properly designated yet. The safeguard and gender team will have three safeguard and gender personnel, Assistant Director (Environment), Assistant Director (Social Safeguards) and Assistant Director (Gender). For project implementation, two division level Regional Project Management Units (RPMUs) was to be established, at Khulna and Barisal. But the Development Project Proforma has been approved without RPMU due to manpower constraints that is why there is no possibility to establish RPMUs at Khulna and Barisal in future. *Pourashavas* are the implementing agencies of the project. The PMU will be supported by three institutional consultants under the supervision and control of Project Director, PMU: (i) the detailed design service consultants (DDSC); (ii) the project management supervision consultants (PMSC) and (iii) Institutional capacity and community development consultants (ICCDC) that are supporting PMU. Apart from team leader of ICCDC, all of the profession of DDSC, PMSC and

³ The graduation program originated in Bangladesh and has since been adopted in several countries as a holistic, time-bound interventions to lift households from poverty through: (i) social assistance to support immediate needs; (ii) livelihood promotion; (iii) financial inclusion; and (iv) social empowerment

ICCDC are on board. The 22 PIUs are already in place in each participating *Pourashava*/subproject town and staffed with a safeguards and gender focal person.

D. Project Categorization

7. **Involuntary Resettlement (Category B).** The project is classified as category B for involuntary resettlement as per ADB's Safeguards Policy Statement (SPS) 2009. A resettlement framework has been prepared as a guidance document, for preparation of resettlement plans / resettlement and Tribes, Minor Races, Ethnic Sects and Communities plans (RTMRESCP), (termed as resettlement and small ethnic community plan in CTCRP) for subprojects that involves involuntary resettlement impacts or insignificant impacts to indigenous people/TMRESC. The CTCRP is assessed to involve mostly insignificant impacts (temporary income loss to road-side hawkers, vendors and shop owners and structure loss not resulting into relocation or less than 10% impact to income generating asset). The sample subprojects are assessed to involve (i) potentially significant impacts for 11 households (56 members), including 7 vulnerable households (38 members);⁴ insignificant impacts to 106 households (504 members) including 51 vulnerable households (289 family members) and loss of 268 trees. No category A subprojects are envisaged, and none will be implemented. The social safeguards planning documents will be updated during the final design and detailed measurement survey. The PMU has disclosed the resettlement plans, small ethnic communities (SEC) planning framework, resettlement and small ethnic communities plan (RSECP), and due diligence reports on the project's official website, and the documents will be available in the local language and disclosed to affected persons.⁵ The resettlement planning documents are included in the bidding documents and civil works contracts; it is ensured by the PMU.

8. **Indigenous peoples (category B).** The project is classified as category B for indigenous people/ Tribes, Minor Races, Ethnic Sects and Communities (TMRESC). A small ethnic communities planning framework document is prepared to guide the preparation of safeguard documents for subprojects that involves impacts on indigenous people. Kuakata, one of the subproject towns, reports the highest proportion of TMRESC (1.67% of the total population). TMRESC populations in the remaining project towns are scattered and integrated in urban society. In Kuakata, six TMRESC households (26 family members) are assessed to face insignificant temporary loss of income and loss of trees, while 25 TMRESC households (103 family members) will benefit due to project implementation.

E. Scope of the Report

9. The scope of the semi-annual social safeguard monitoring report (SSMR) is to present the periodic (semi-annually) update of the project implementation status in compliance with the ADB SPS, 2009, as per the approved resettlements plans/RSECP/DDR). The list of disclosed social safeguard documents is provided in **Appendix 1**. Table 1 below presents the list of social safeguards documents prepared per *pourashava*. A total of 34 DDRs, 6 RPs, and 1 RSECP have been cleared and disclosed to date.

⁴ Relocation of 11 households is assessed for Integrated Waste Management for Bagerhat.

⁵ The Government of Bangladesh requires use of the term "Tribes, Minor Races, Ethnic Sects and Communities" instead of indigenous peoples.

⁶ A combined DDR was prepared for four cyclone shelters in Borhanuddin (2 multipurpose cyclone shelters), Charfassion (1 cyclone shelter), Lalmohan Pourashavas (1 cyclone shelter).

10. The report aims to capture (i) critical facts, significant findings, and recommended actions; (ii) capture any adverse impact in terms of involuntary resettlement impact or income loss due to loss of access during construction work; (iii) provide information on necessary safeguard measures adopted to avoid, reduce, minimize, mitigate or compensate any adverse impact due to project work; (iii) identify mitigation measures and any residual negative impacts that cannot be avoided; (iv) describe the process undertaken during project design to engage stakeholders and the planned information disclosure measures for carrying out consultation with affected people to facilitate their participation during project implementation; (v) describe the project's grievance redress mechanism for resolving complaints; (vi) describe the monitoring measures and reporting procedures to ensure early detection of conditions that necessitate particular mitigation measures; and (x) identify who is responsible for carrying out the mitigation and monitoring measures. This report covers the social safeguards implementation progress/status for the reporting period from July 2024 to December 2024.⁷

⁷ Bangladesh underwent a political transition. Elected local representatives were replaced by government-appointed administrators, who prioritize only essential tasks, leading to delays in project progress, including PMSC appointment and the RP implementation.

Figure 1: Project Location Map

11. A total of 27 packages have been awarded as of 31 December 2024. Out of those 3 packages: (i) Patharghata RD-01, (ii) Nalcity CS-01 and (iii) Kuakata CS -02 have been awarded during the reporting period (from Jul - Dec 2024). As of 31 December 2024, civil works of 27 packages are ongoing and the highest physical accomplishment is 88% (Charfassion RD-02). **Table 2** presents the status of awarded subproject/packages as of 31 December 2024.

12. Table 2 indicates the status of 53 packages. Social safeguards documents for 49 packages were cleared, including 3 combined documents covering 10 packages (1 RP for 3 drainage packages in Patuakhali, 1 DDR for 4 cyclone shelters in Borhanuddin, Charfassion and Lalmohon, and 1 RP for 3 road packages in Bakerganj). Social safeguards documents of the 4 remaining work packages are under preparation.

II. SCOPE OF INVOLUNTARY RESETTLEMENT IMPACT

A. Involuntary Resettlement Impact

13. Based on the impacts assessed and the socioeconomic survey of the affected persons; six resettlement plans⁸ and one resettlement and small ethnic communities plan⁹ were prepared and approved by ADB. The project (31 December 2024) has been assessed to involve potentially significant impacts for 12 households (60 members), including 8 vulnerable households (42 members); insignificant impacts for 107 households (508 members), including 52 vulnerable households (293 members); and the loss of 268 trees. The proposed mitigation measures and safeguard planning documents for sample subprojects address these impacts adequately. No category A subprojects are envisaged, and none will be allowed. The social safeguards planning documents will be updated in case of design changes/modifications. The resettlement framework guides the preparation of resettlement planning documents. The PMU has disclosed the updated resettlement plans, small ethnic communities (SEC) planning framework, resettlement plan and tribes, minor races, ethnic sects and communities plan (RESCP) plan, and due diligence reports on the project's official website, and the documents will be summarized into a project information disclosure leaflet and will be made available in the local language and disclosed to affected persons.¹⁰ The resettlement planning documents are included in the bidding documents and civil works contracts.

14. The following are package-wise involuntary resettlement impacts are discussed below:

Table 3: Package-wise Involuntary Resettlement Impacts

Pourashava	Package/ Subproject	Land Ownershi p Details	Type of Impacts			Remarks
			Temporar y Income Loss	No. of Affec t ed Perso ns	Other IR Impacts	
Sample Subprojects (assessed during project processing)						
1. Jhalokathi	Construction/Improve ment of Roads and Roadside Drains	Jhalokathi <i>Pourashava</i>	✓	64		53 roadsides shipowners and 11 wage employees
2. Bagerhat	Integrated Waste Management	Bagerhat <i>Pourashava</i>	None.	11	Physical displace ment (relocati on)	In 2017, land was acquired by <i>Pourasha a.</i> 10 residential HHs 1 commercial structure to be shifted.
3. Bagerhat	Construction and Improvement of Reinforced Cement Concrete Drains	Bagerhat <i>Pourashava</i>	✓	40		20 roadside Shop owners and their 20 wage

⁸ Resettlement plans include: (i) Bagerhat (Drainage); (ii) Bagerhat (Integrated Waste Management); (iii) Bakerganj (RD1, RD02 and RD03); (iv) Jhalokathi (RD01); (v) Patharghata (RD01), and (vi) Patuakhali (Drainage).

⁹ RSECP Kuakata (Roads)

¹⁰ The Government of Bangladesh requires use of the term "small ethnic communities" instead of indigenous peoples.

<i>Pourashava</i>	Package/ Subproject	Land Ownersh p Details	Type of Impacts			Remarks
			Temporar y Income Loss	No. of Affec t ed Perso ns	Other IR Impacts	
						employees
4. Kuakata	Kuakata Town Roads (RSECP)	Kuakata <i>Pourashava</i>	✓	6		Out of 6 APs, 2 APs will lose temporary income and 4
Prepared after project approval						
5. Bakerganj	Construction and Improvement of 19.83 km Bituminous Carpeting and Reinforced Concrete Cement Roads	Bakerganj <i>Pourashava</i>			2 NTH (structure loss)	2 stairways (secondary structure) Portion of one residential structure
6. Patharghata	Construction/Improvement of 4 Roads	Patharghata <i>Pourashava</i>	✓	1		One affected person (shop owner) may incur temporary income loss during construction due to access disruption and during shifting of the structure
7. Patuakhali	Construction and Improvement of 12.32 km.RCC Drains	Patuakhali <i>Pourashavas</i>	✓	3		Three affected persons (shop owners may incur temporary loss of income during construction due to access disruption.

B. Status of Compensation Payment and Restoration/Rehabilitation

15. As of reporting period, a total of 26 contracts packages have been awarded (detailed in **Table 2**). All packages construction work is ongoing; however, conformity soil test, site clearing, materials mobilization is ongoing for these packages. The final impact assessment has been done before mobilization of contractor/s and compensation payment is ongoing for one subproject (**see Table 4**) as per the social safeguard document.

Table 4: Status of Compensation Payment for Subprojects with Assessed Involuntary Resettlement Impacts

Packages with Involuntary Resettlement Impacts	Approved Social Safeguards Documents	Subproject	Construction Progress (as of December 2024)	Compensation Status
1. Jhalokat hi	Resettlement Plan https://www.adb.org/sites/default/files/project-documents/55201/55201-001-rp-en_2.pdf	Construction/Improvement of Roads and Roadside Drains	25%	The RP has identified that 53 small businessmen will face temporary loss of income due to implementation of “Construction/Improvement of Roads and Roadside Drains” in Jhalokathi <i>Pourashava</i> in April 2022. For sake of the development 38 affected persons (out of 53) have voluntarily refused compensation. The affected persons are happy with the present development activities and provide No Objection Certificate (NoC) to Jhalokathi <i>Pourashava</i> in favor of not willing to receive the compensation. The remaining 15 affected persons have left the location about 15-18 months prior to commencement of construction. (NoC has been attached in Appendix 7, Serial No. A).
2. Bagerha t	Resettlement Plan https://www.adb.org/projects/documents/ban-55201-001-rp-1	Construction and Improvement of Reinforced Cement Concrete Drains	50%	A RP has been prepared for “Construction and Improvement of Reinforced Cement Concrete Drains in Bagerhat <i>Pourashava</i> – Length: 5.557 km” in April 2022. The RP identified that 20 small businessmen will face temporary loss of income due to construction of RCC drains. For the sake of the development affected persons voluntarily refused the compensation. The affected persons also provide NoC in favor of not being willing to receive compensation to the Bagherhat <i>Pourashava</i> . (NoC has been attached in Appendix 7, Serial No. B).
3. Bagerha t	Resettlement Plan https://www.adb.org/sites/default/files/linked-documents/55201-001-rpab-02.pdf	Integrated Waste Management	Contract not awarded	The RP has identified 11 households with 56 households members who need to be shifted due to construction of Integrated Waste Management. Out of which, 10 households are affected by loss of residential structure and 1 household affected by loss of residential-cum-commercial structure (furniture shop). Owner of residential-cum-commercial structure will lose income from business due to implementation of “Integrated Waste Management” for Bagerhat <i>Pourashava</i> . Among 11 affected households, 7 are

Packages with Involuntary Resettlement Impacts	Approved Social Safeguards Documents	Subproject	Construction Progress (as of December 2024)	Compensation Status
				<p>vulnerable with 38 household's members.</p> <p>The RP has assessed impact to 11 households who need to be shifted out of the location due to their proximity to the proposed landfill site. However, they will continue to be the owners of the land parcel.</p> <p>According to the RP, 28.58 decimals of land and 873.28m² of semi-pucca structures will be affected. The land has been acquired and the affected persons received compensation from the Deputy Commissioner of Bagethat district. Evidence of payment to the affected persons is attached in Appendix 7 Serial No. C.</p>
4. Kuakata	RSECP https://www.adb.org/projects/documents/ban-55201-001-remdp	Kuakata Town Roads	30%	<p>A RSECP has been prepared for "Kuakata Town Roads Subproject" in Kuakata <i>Pourashava</i> under CTCRP in April 2022. The RSECP identified that 2 owners of small businesses will face temporary loss of income and 48 small-sized trees will be affected. Owners of the 48 small size of trees are the community members.</p> <p>The affected persons and communities anticipate gaining benefit from the improved road access and connectivity. The affected persons voluntarily refused the compensation. The ADB Mission Team consulted the affected persons 9 July 2024 In this respects NoC has been attached in Appendix 7, Serial No. D.</p>

Packages with Involuntary Resettlement Impacts	Approved Social Safeguards Documents	Subproject	Construction Progress (as of December 2024)	Compensation Status
5. Bakerga nj	Resettlement Plan https://www.adb.org/projects/documents/ban-55201-001-rp-3	Construction and Improvement of 19.83 km Bituminous Carpeting and Reinforced Concrete Cement	RD-01: 40% RD-02 and RD-03: procurement	Two (2) residential structures will be partially affected as per the RP prepared in Aug. 2023 for “Construction and Improvement of 19.83 km Bituminous Carpeting and Reinforced Concrete Cement Roads under 3 Packages: (i) e-GP/CTCRP/BAKR/RD-01, (ii) e-GP/CTCRP/BAKR/RD-02, and (iii) e-GP/CTCRP/BAKR/RD-03” in Bakerganj <i>Pourashava</i> . As of 31 Dec 2024, compensation not paid to the affected persons. The PMUs has issued a letter to the PIU for updating the list of affected persons as well as paid compensation as described in the RP.
6 Patharg hata	Resettlement Plan https://www.adb.org/projects/documents/ban-55201-001-rp-4	Construction/Improvement of 4 Roads	Agreement between contractor and PIU completed	One small businessman will face loss of temporary income due to “Construction/Improvement of 4 Roads in Patharghata <i>Pourashava</i> . The affected businessman has received compensation. Evidence of payment to the affected person attached in Appendix 7 Serial No. E.
7. Patuakh ali	Resettlement Plan https://www.adb.org/projects/documents/ban-55201-001-rp-2	Construction and Improvement of 12.32 km RCC Drains	DR-01: 85.4% DR-02: 81:84% DR-03: 82:54	A RP has been prepared in October 2023 for “Construction and Improvement of 12.32 km RCC Drains Under 3 Packages: (i) CTCRP/PTK/21- 22/DR-01, (ii) CTCRP/PTK/21-22/DR-02 and (iii) CTCRP/PTK/21-22/DR-03)” in Patuakhali <i>Pourashava</i> , The RP identified that 3 small businesses will face loss of temporary income. The affected persons have provided NoC to the <i>Pourashava</i> stating that they are not willing to receive compensation. For the sake of the development of the <i>Pourashava</i> , the affected persons did not require the minimal compensation. In this connection, NoC has been attached in Appendix 7, Serial No.F).

C. Implementation Status of the TMRESC Community Specific Action Plan (for Kuakata Roads)

16. In Kuakata RD-01 subproject, small and medium size of trees were cut down Rakhain Community. The community benefits from the subproject through improved roads for easier movement and drainage to address waterlogging, enhancing overall road and drainage conditions. Consequently, the community is pleased with these improvements and has willingly declined compensation in favor of supporting the development project. Any structures or income not been affected or disrupted due to the improvement of the road. Before implementation of the subproject water logging were occurred during rainy season. After implementation of the subproject water logging has been removed and road communication system has been improved that is why the Rakhain Community are happy towards the project. No direct or indirect impact to the dignity, human rights, livelihood systems or natural or cultural resources of Rakhain community, is anticipated as the affected trees are not part of their cultural or religious practices. The overall impact to the community will be mostly beneficial, and the proposed road improvement is anticipated to benefit 25 Rakhain households (103 family members). The specific action plan ensures that project benefits to TMRESC are undertaken in a culturally appropriate manner. The status of the SAP is provided below:

Table 5: Status of TMRESC Community Specific Action Plan

Sl. No.	Specific Activities	Means of Verification	Responsibility	Timeline	Remarks	Status
1	Identify and include IP/ TMRESC households and localities in project influence area	Baseline data generated from primary data analysis*	Contractor/PMS C/Town level PIU	Year 1		Will be completed by PMSC
2	Proposed benefits to IP/SEC households (from the subproject scope/DMF indicators and GAP indicators if applicable) 1. Number of IP/ TMRESC Households using improved roads; 2. Number of IP/ TMRESC Households benefited from improved drainage; 3. Participation of IP/ TMRESC in awareness campaigns 4. Participation of eligible/targeted IP/ TMRESC in training programs and internships	Project documents (subproject scope/DMF indicators and GAP indicators)	Contractor/PMS C/Town level PIU/RPMU	1. Year 5 onward s 2. Year 5 3. Year 1 onward s; Throughout project duration 4. Year 1-6	IEC materials, information sharing, consultations and other activities stated in the CAPP will be culturally sensitive and appropriate when implemented;	Will be completed by PMSC

Sl. No.	Specific Activities	Means of Verification	Responsibility	Timeline	Remarks	Status
3	Type of consultations planned with IP/ TMRESC households (stage of project cycle) 1. Pre-Construction 2. Construction 3. Post Construction 4. Other	Detailed report on consultation in MPR/QPR (as submitted by the project consultants)/ Semi-annual social monitoring reports with photographs	PMSC/Town level PIU/RPMU	Year 1 onward s	Consultations with TMRESC households will be conducted in all subproject stages which shall help in identifying any culture-specific requirements and traditions like avoidance of any specific festival days, and/or other activities with cultural significance to the TMRESC communities during civil work; and any other TMRESC related issues and concerns that may be of importance to the community.	Will be completed by PMSC
4	Grievance Redress Mechanism established at different levels	Government order/notice/little specifying inclusion IP/ TMRESC representation in first and third Level Grievance redress team as described in the project GRM Report related to project grievance reflected in the monitoring reports of the Project	PMU/RPMU	Year 1	The chief of the tribe or a member of the tribal council as traditional arbitrator (to ensure that traditional grievance redress systems are integrated) and an NGO/CSO working with TMRESC will be special invitees, when required. GRC will also ensure that grievance redress established is gender inclusive in receiving and facilitating	GRC has been established at the project level. No grievance has been recorded till date. Will be in place in case of grievance raised from the TMRE SC.

Sl. No.	Specific Activities	Means of Verification	Responsibility	Timeline	Remarks	Status
					resolution of the TMRESC concerns;	
Monitoring – Project completion stage						
5	End-line Survey including assessment of coverage and satisfaction levels of IP/ TMRESC households with subproject work completed/ subproject intended benefits vs actual benefits to the IP/ TMRESC community	End-line survey report and project completion report (PCR)	PMSC/Town level PIU	Year 6- 7		Not yet due.

III. DISCLOSURE, PUBLIC PARTICIPATION AND CONSULTATION

17. Public consultation meetings were held with the key stakeholders, during the project preparation and at the onset of project implementation. During the reporting period, public consultation meetings were held with Madrasa and high school authority and community people in line with the ADB's requirements pertaining to environmental, economic and social considerations (Appendix 2) were conducted in Kolaroa, Muladi, Patuakhali, Bagerhat, Betagi, Gouranadi, Kuakata, Swarupkathi, Chalna, Bakerganj, Nalcity, Jhalokathi, Borhanuddin, Charfassion, Lalmohan, Zanjira, Patharghata and Bakerganj *Pourashavas*. Consultation with locals, key stakeholders helped in identifying the felt needs and apprehensions related to the project and their priorities. Subproject-wise venue, date and number of participants presented in **Table 6**.

Table 6: Summary of Public Consultations for Proposed Cyclone Shelters

No.	Date	Package	Pourashava	No. of Participants	No. of Female Participants

Source: Project Management Unit (PMU), Coastal Towns Climate Resilience Sector Project (CTCRSP).

18. The local people have expressed their greater interest for this cyclone shelter for their safety during disaster period and using this facility for education purpose. They have also assured that they will provide required support in construction, operations and maintenance of this cyclone shelter. *Pourashava* management and local community will be responsible for providing required services for construction, operation and maintenance of cyclone shelter. The services/uses of cyclone shelter will result in saving lives of local people and reduce damage to their properties that caused due to irregular disaster in this coastal area.

19. The local community expressed their satisfaction with the improvement and/or construction of roads and drains. The local community hopes that similar development activities will be continued through ADB and LGED. Since the coastal belt of Bangladesh is more vulnerable and behind compared to other region of the country; therefore, such development is very essential.

20. Efforts will be given to ensure female participation in consultation process during implementation phase. Special care will be taken to disseminate information to the community people regarding the cyclone center and its usefulness during disaster time. Provisions for separate toilet facilities for men and women have been considered in the design of the cyclone center. People around the nearby area of the cyclone center will get the best benefits during disaster period.

21. During the group discussion, it was clearly mentioned that the construction work will be undertaken in such a way that there will be no harm caused to any person or the existing school building due to project execution activity. The daily functioning of the school or academic session will not be disturbed. Project outcomes and benefits were explained to the stakeholders. During the consultation, community people were explained in detail regarding the proposed developments of the plot under the ADB project. All the participants confirmed their extended support for the success of the project.

22. Public information campaigns to explain the project details to a wider population will be conducted throughout project lifecycle. Public disclosure meetings will be conducted at key project stages to appraise community members. Prior to start of construction, the PIU will issue notification on the start date of implementation in local newspapers. A notice board showing the details of the project will be displayed at the construction sites for the information of public.

23. Public participation will be generated through use of various methods, such as, stakeholder consultation meetings, FGDs with different groups (including women), key informant interviews etc. It is also expected to offer a platform to the community people in to (i) know about the program, and (ii) express their opinion regarding priorities and concerns related to the project.

IV. GRIEVANCE REDRESS MECHANISM

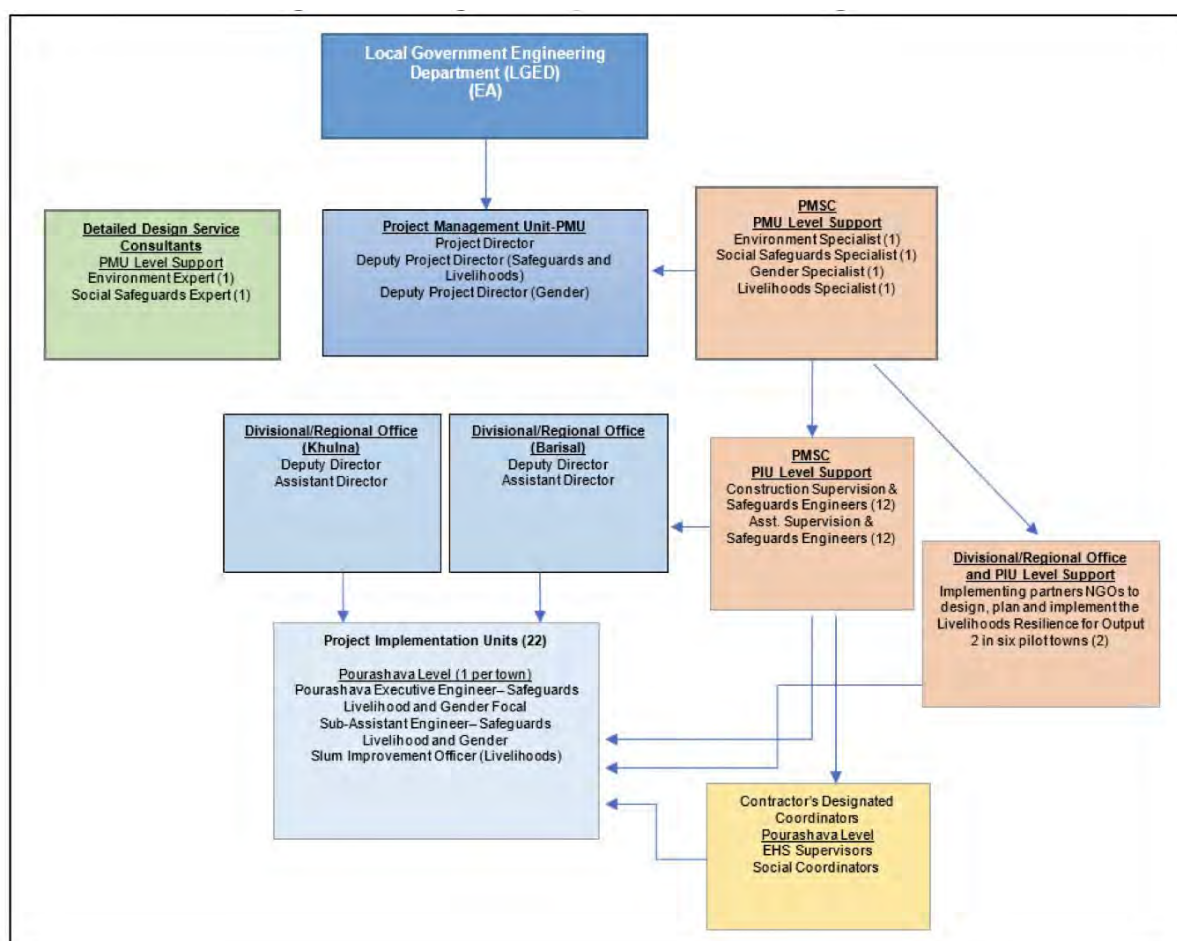

24. The project adopts a three-tier Grievance Redress Mechanism (GRM) for implementing the project. The GRM receives, evaluates, and facilitates the resolution of social, environmental, or other project-related grievances. The GRM will aim to provide a time-bound and transparent mechanism to voice and resolve social and environmental concerns linked to the project. The public awareness campaign will be conducted to ensure that awareness of the project and its grievance redress procedures is generated and shared with affected persons and other stakeholders. The campaign will ensure that the poor, vulnerable, and others are made aware of the need for and process in availing of the GRM. The list of GRC members is provided in **Appendix 6**. No grievances have been recorded within the reporting period of this SSMR.

25. The PIU and PMU informed the contractor about the project-GRM. Grievance boxes have been installed at the construction site and in the *Pourashava*. Additionally, the PIU and PMU have also notified the contractor(s) regarding the GRM. Intensive training will be conducted on social safeguards by the PMSC.

V. INSTITUTIONAL ARRANGEMENT

26. The MLGRDC acting through its LGED is the Executing Agency. Project Management Unit (PMU) at the LGED is headed by a Project Director (PD), who is supported by two Deputy Project Directors (DPDs) overseeing safeguards and livelihood, and gender. Deputy Project Director (Executive Engineer) CTCRP will be the Safeguard focal person from PMU. The safeguard and gender team will have three safeguard and gender personnel, Assistant Director (Environment), Assistant Director (Social Safeguards) and Assistant Director (Gender). For project implementation, two division level RPMUs will be established, at Khulna and Barisal. It is not possible to establish RPMUs at Khulna and Barisal because provision of RPMUs was not approved from the revised DDP. *Pourashavas* are the implementing agencies of the project. The PMU will be supported by institutional consultants under the supervision and control of Project Director, PMU: (i) the detail design service consultants (DDSC); (ii) the project management supervision consultants (PMSC), that will support PMU; (ii) Institutional capacity and community development consultants (ICCDC) that will support PMU, and (iii) PMSC at the division level that will support the two RPMUs and the town-level PIUs. PMSC is not on board as of 31 December 2024. The PIUs will be established in each participating *Pourashava*/ subproject town and staffed with a safeguards and gender focal person. A list of manpower at PMU and PIUs/*Pourashava* level is attached in **Appendix 3**.

Figure 2: Safeguards Organogram for CTCRP

VI. MONITORING RESULTS-FINDINGS

27. As of 31 December 2024, 41 social safeguard documents have been prepared for CTCRP. Out of which, 6 are RPs,¹¹ 1 is RSECP, 1 IP-IR DDR and 34 LA/IR DDRs. Detailed and specific information provided in the respective RPs/RSECP. Among the 34 DDRs, 14 were prepared for multipurpose cyclone shelter, 20 for road and roadside drains and among the 6 RPs, 3 were prepared for roads components, 1 Integrated Waste Management, 2 RCC Drain.

28. As of 31 December 2024, RPMUs have not been established in Khulna and Barisal Region. Because the DPP has been approved with the provision of 13 personnel for the PMU, excluding the RPMU. Therefore, there is no scope to establish RPMUs under the CTCRP.

29. In the reporting period, PMSC, DDSC and ICCDC are on board, except the team leader of ICCDC. The IDDC team leader is expected to be on board by early 2025.

VII. COMPLIANCE STATUS WITH LOAN COVENANTS (SOCIAL SAFEGUARDS)

30. The summary of compliance status of the project activities with the loan covenants, ADB SPS (2009) on involuntary resettlement and indigenous peoples safeguards and the approved final RPs/RSECP is given below:

Table 7: Status of Loan Covenants (Social Safeguard)

Loan Covenants for Social Safeguards (Schedule 4)	Status of Compliance
Condition for Awards of Contracts; Commencement of Works	
<p>The Borrower shall ensure, or cause the Project Executing Agency and the Pourashavas to ensure, that no Works contract is awarded for a subproject that involves:</p> <ul style="list-style-type: none"> - involuntary resettlement impacts until the Project Executing Agency has prepared and submitted to ADB the final RP for such subproject based in the subproject's detailed design, and obtained ADB's clearance of the RP; or -impacts on Small Ethnic Communities until the Project Executing Agency has prepared and submitted to ADB the final SECP and obtained ADB's clearance of the SECP. 	<p>Being complied.</p> <p>No civil works carried out in stretches/project locations ready for implementation with resettlement impacts until compensation is provided. Compensation payment has been made in Patharghata <i>Pourashava</i></p>
Involuntary Resettlement	
<p>The Borrower shall ensure, or cause the Project Executing Agency to ensure, that all land and all rights-of-way required for the Project, each Subproject and all Project Facilities are made available to the Works contractor in accordance with the schedule agreed under the related Works contract and all land acquisition and resettlement activities are implemented in compliance with (a) all applicable laws and regulations of the Borrower relating to land acquisition and involuntary resettlement; (b) the Involuntary Resettlement Safeguards; (c) the RF; and (d) all measures and requirements set forth in the respective RP, and any corrective or preventative actions set forth in a Safeguards Monitoring Report</p>	<p>Being complied.</p>
<p>Without limiting the application of the Involuntary Resettlement Safeguards, the RF or the RP, the Borrower shall ensure, and cause the Project Executing Agency and the Pourashavas to ensure, that no physical or economic displacement takes place in connection with the Subprojects until:</p> <p>(a) compensation and other entitlements have been provided to</p>	<p>Compensation payment has been provided in Patharghata <i>Pourashava</i>. This will be ensured and/or complied for subprojects with IR impacts. Compensation status</p>

¹¹ See footnote 8.

Loan Covenants for Social Safeguards (Schedule 4)	Status of Compliance
<p>affected people in accordance with the RP; and</p> <p>(b) a comprehensive income and livelihood restoration program has been established in accordance with the RP.</p>	<p>and/or avoidance measures undertaken will be continually reported in the subsequent SSMRs. During consultations, the affected persons in some subprojects areas (see Table 4: Status of Compensation for Subprojects) reported that compensation was not necessary due to minimal impact and small amount of compensation involved. <u>No Objection letters from the affected persons not desiring compensation are attached in this SSMR.</u></p>
Tribes, Minor Races, Ethnic Sects and Small Ethnic Communities	
<p>The Borrower shall ensure, or cause the Project Executing Agency and the Pourashavas to ensure, that the preparation, design, construction, implementation and operation of the Project, each Subproject and all Project Facilities comply with (a) all applicable laws and regulations of the Borrower relating to indigenous peoples (also referred to as tribes, minor races, ethnic sects and small ethnic communities under the laws of the Borrower); (b) the Indigenous Peoples Safeguards; (c) the SECPF; and (d) all measures and requirements set forth in the respective SECP, and any corrective or preventative actions set forth in a Safeguards Monitoring Report.</p>	<p>Project will ensure compliance. For CTCRP, one RSECP (Kuakata) was prepared. Project will ensure that activities set forth in the RSECP will be followed during civil works. PMSC has been onboarded and it is expected that priorities will include implementation of the specific action plan in the RSECP and IR-DDR DDR (Kuakata roads).</p>
Safeguards-Related Provisions in Bidding Documents and Works Contracts	
<p>The Borrower shall ensure, or cause the Project Executing Agency and the Pourashavas to ensure, that all bidding documents and contracts for Works contain provisions that require contractors to:</p> <p>(a) comply with the measures and requirements relevant to the contractor set forth in the relevant IEE, EMP, RP and SECP (to the extent they concern impacts on affected people during construction), and any corrective or preventative actions set out in a Safeguards Monitoring Report;</p> <p>(b) make available a budget for all such environmental and social measures;</p> <p>(c) provide the Borrower with a written notice of any unanticipated environmental, resettlement or Small Ethnic Communities risks or impacts that arise during construction, implementation or operation of the Project that were not considered in the IEE, the EMP, the RP or the SECP;</p> <p>(d) adequately record the condition of roads, agricultural land and other infrastructure prior to starting to transport materials and construction; and</p> <p>fully reinstate pathways, other local infrastructure, and agricultural land to at least their pre-project condition upon the completion of construction;</p>	<p>As of 31 December 2024, total, 26 contracts packages have been awarded. In all of these packages, construction work is ongoing. Conformity soil test, old building demolishing/clearing, and materials mobilization is ongoing.</p>
Safeguards Monitoring and Reporting	
<p>The Borrower shall do the following, or shall cause the Project Executing Agency</p>	

Loan Covenants for Social Safeguards (Schedule 4)	Status of Compliance
and the Pourashavas to do the following:	
<p>(a) submit semi-annual Safeguards Monitoring Reports to ADB and disclose relevant information from such reports to affected persons promptly upon submission;</p> <p>(b) if any unanticipated environmental and/or social risks and impacts arise during construction, implementation or operation of the Project that were not considered in the IEE, the EMP, the RP or the SECP, promptly inform ADB of the occurrence of such risks or impacts, with detailed description of the event and proposed corrective action plan; and report any actual or potential breach of compliance with the measures and requirements set forth in the EMP, the RP or the SECP promptly after becoming aware of the breach.</p>	Complied.
Prohibited List of Investments	
The Borrower shall ensure, or cause the Project Executing Agency and Pourashavas to ensure, that no proceeds of the Loan are used to finance any activity included in the list of prohibited investment activities provided in Appendix 5 of the SPS	Complied.
Communications and Participation	
The Borrower shall ensure, or cause the Project Executing Agency and the <i>Pourashavas</i> to ensure, that the Project is undertaken in conformity with the Stakeholder Communication Strategy as provided in the PAM.	CAPP will be prepared by PMU and submitted to ADB for review upon mobilization of the Institutional Capacity and Community Development Consultant (ICCDC)

VIII. FOLLOW UP ACTIONS, NEXT STEPS AND RECOMMENDATION

Follow-up Actions/Recommendations	Remarks/Status/Activities for the next reporting period January – June 2025/Timeframe
<p>PMU and PIU level safeguards personnel with the support of PMSC will be responsible for the implementation and monitoring of resettlement plans, RSECP and DDRs. The monitoring reports submitted semi- annually will contain evaluation of the resettlement plans and RSECP implementation, and its efficacy and provide valuable insight into the constraints in the way of implementation of the resettlement plan. The priority activities will include the following:</p> <ul style="list-style-type: none"> • PID leaflet translated in local language to be shared with the communities • Ensure contractor's social coordinators are designated and mobilized in all subprojects for which construction are ongoing • Contractors' supervisors need awareness of their roles within the GRM. PMU and PIU need to ensure that grievance registers are available at all sites • PMU was requested to document cases where impacts were avoided or where no compensation was needed in the updated social safeguards documents or in the SSMR 	Once PMSC's social safeguards specialist is appointed and mobilized, monitoring and supervision of the ongoing activities will be strengthened.

Follow-up Actions/Recommendations	Remarks/Status/Activities for the next reporting period January – June 2025/Timeframe
<ul style="list-style-type: none"> PMU to ensure that compensation should be provided in line with the entitlement matrix for any future impacts, prior to civil works and displacement. Review all follow-through actions/next steps reflected in each DDR/RPs/RSECP and provide status in future SSMR submission As mentioned in the DDR prepared for the cyclone shelter, draft the legal agreement between the Pourashavas and the Madrasah or School Managing Committees for cyclone shelters subprojects, which will formalize the arrangement for the O&M. 	
<p>An independent third-party certification will be conducted for affected persons who opted/desired not to receive compensation, as listed in Table 4, to confirm that their decision was voluntary and made without coercion. The third-party will verify that these affected persons are not vulnerable. The verification will be carried out by an independent external party with no affiliation with the project. All third-party associated costs will be covered by the government. The third party certification and minutes of the meeting will be attached in the subsequent SSMRs.</p>	<p>It will be reported in the subsequent SSMR submission.</p>
<p>In case IR impacts assessed in the RPs/RSECPs are avoided, the process will be thoroughly documented through videographic and/or photographic evidence captured during the pre-implementation, construction, and post-construction stages. Consultations will also be conducted with the concerned owners or entities to confirm that no impacts have occurred.</p>	<p>The documentation, which will also include minutes of the meetings, attendance sheets and photographs/videographic evidences, will be included in the subsequent SSMRs, in case IR impacts assessed in the social safeguards documents (i.e., resettlement plans, RSECP) have been avoided.</p>
<p>The PMU with the support of the PMSC Social Safeguard Consultant (once mobilized) shall prepare and send status reports to ADB on resettlement plan and resettlement and small ethnic community plan implementation periodically through the SSMR and quarterly progress report (QPR). SSMR will be submitted until a project completion report is prepared.</p>	<p>This will be ensured once PMSC Social Safeguard Consultant is mobilized.</p>
<p>Implementation of specific action plan for TMRESC benefit enhancement</p>	<p>Priorities for the subsequent reporting will include implementation of the specific action plan in the RSECP and IR-DDR DDR (Kuakata roads).</p>

Follow-up Actions/Recommendations	Remarks/Status/Activities for the next reporting period January – June 2025/Timeframe
During project implementation, PMU will establish a monthly monitoring system involving staff at the PIU/ <i>Pourashava</i> level who will prepare monthly progress reports on all aspects of social safeguards implementation and compliance.	PMU's monitoring cell to be strengthened through involving a staff at the PIU level.
PIUs to ensure that (i) contractors are made aware of their roles in grievance registration, (ii) that grievance registers are maintained at each site; (iii) contractors, to install grievance boxes in the contractor's office/site area.	These activities will be ensured throughout project implementation.
Mitigation measures as proposed in the draft resettlement plan will be taken by the contractor and a robust monitoring plan will be put in place by the PIUs and PMU to ensure its compliance.	These activities will be ensured throughout project implementation.
Training and sensitization to the Contractor and its staff on social safeguards including project-GRM will be conducted	Contractors have been informed of their roles and responsibilities in social safeguards, including the GRM. Formal training and capacity-building will be conducted by the PMSC's social safeguards specialist once appointed and mobilized. Target schedule within Q1- Q3 2025.

স্থানীয় সরকার প্রকৌশল অধিদপ্তর কর্তৃক পরিচালিত এবং ADB-এর সহায়তাপুষ্ট CTCRP প্রকল্পের উল্লিখিত সাব-প্রজেক্টের নির্মাণ কার্যক্রমের কারণে ক্ষতি ও সাময়িক অসুবিধা সম্পর্কে সামাজিক সুরক্ষা ও পরিবেশ সুরক্ষা বিষয়ে এক আলোচনা সভা অনুষ্ঠিত হয়। উক্ত সাব-প্রজেক্টের নির্মাণ কাজের কারণে আমাদের যৎসামান্য ক্ষতি ও চলাচলের সাময়িক অসুবিধা সম্পর্কে আমরা অবহিত আছি। প্রস্তাবিত সাব-প্রজেক্টের উন্নয়ন আমাদের সবার জন্য অতীব প্রয়োজন। সর্বসাধারণের সুবিধার্থে এবং উন্নয়নের স্বার্থে আমরা স্বেচ্ছায় পৌরসভার কাছ থেকে ক্ষতিপূরণ গ্রহণ করছি না। নির্মাণ কাজের সময় সংশ্লিষ্ট কর্মকর্তা এবং ঠিকাদার কর্মীদের প্রয়োজনীয় সার্বিক সহযোগিতা করবো। উপস্থিত সর্ব সম্মতিক্রমে সোচ্ছায় ও সজ্ঞানে এই অনাপত্তি পত্র প্রদান করলাম এবং ভবিষ্যতে এ বিষয়ে আমরা কোন প্রকার ক্ষতিপূরণ দাবি করবো না।

No objection

A discussion meeting was held on social and environmental safeguards regarding the impact and temporary inconvenience caused by the construction activities of the mentioned sub-project of the CTCRP project, which is managed by the Department of Local Government Engineering and supported by ADB. We, the locals, are aware of the minor impact and temporary inconvenience caused to us due to the sub-project's construction work. The development of the proposed sub-project is very necessary for all of us. For the convenience of the general public and in the interest of development, we are not voluntarily accepting compensation from the municipality. We will cooperate with the concerned officers and contractor workers during construction. With the consent of all present, we voluntarily and knowingly provide this no-objection letter and will not demand any compensation in the future.

স্থানীয় সরকার প্রকৌশল অধিদপ্তর কর্তৃক পরিচালিত এবং ADB-এর সহায়তাপুষ্ট CTCRP প্রকল্পের উল্লেখিত সাব-প্রজেক্টের নির্মাণ কার্যক্রমের কারণে ক্ষতি ও সাময়িক অসুবিধা সম্পর্কে সামাজিক সুরক্ষা ও পরিবেশ সুরক্ষা বিষয়ে এক আলোচনা সভা অনুষ্ঠিত হয়। উক্ত সাব-প্রজেক্টের নির্মাণ কাজের কারণে আমাদের যৎসামান্য ক্ষতি ও চলাচলের সাময়িক অসুবিধা সম্পর্কে আমরা অবহিত আছি। প্রস্তাবিত সাব-প্রজেক্টের উন্নয়ন আমাদের সবার জন্য অতীব প্রয়োজন। সর্বসাধারণের সুবিধার্থে এবং উন্নয়নের স্বার্থে আমরা স্বেচ্ছায় পৌরসভার কাছ থেকে ক্ষতিপূরণ গ্রহণ করছি না। নির্মাণ কাজের সময় সংশ্লিষ্ট কর্মকর্তা এবং ঠিকাদার কর্মীদের প্রয়োজনীয় সার্বিক সহযোগিতা করবো। উপস্থিত সর্ব সম্মতিক্রমে স্বেচ্ছায় ও সজ্ঞানে এই অনাপত্তি পত্র প্রদান করলাম এবং ভবিষ্যতে এ বিষয়ে আমরা কোন প্রকার ক্ষতিপূরণ দাবি করবো না।

No objection

A discussion meeting was held on social and environmental safeguards regarding the impact and temporary inconvenience caused by the construction activities of the mentioned sub-project of the CTCRP project, which is managed by the Department of Local Government Engineering and supported by ADB. We, the locals, are aware of the minor impact and temporary inconvenience caused to us due to the sub-project's construction work. The development of the proposed sub-project is very necessary for all of us. For the convenience of the general public and in the interest of development, we are not voluntarily accepting compensation from the municipality. We will cooperate with the concerned officers and contractor workers during construction. With the consent of all present, we voluntarily and knowingly provide this no-objection letter and will not demand any compensation in the future.

স্থানীয় সরকার প্রকৌশল অধিদপ্তর কর্তৃক পরিচালিত এবং ADB-এর সহায়তাপুষ্ট CTCRP প্রকল্পের উল্লেখিত সাব-প্রজেক্টের নির্মাণ কার্যক্রমের কারণে ক্ষতি ও সাময়িক অসুবিধা সম্পর্কে সামাজিক সুরক্ষা ও পরিবেশ সুরক্ষা বিষয়ে এক আলোচনা সভা অনুষ্ঠিত হয়। উক্ত সাব-প্রজেক্টের নির্মাণ কাজের কারণে আমাদের যৎসামান্য ক্ষতি ও চলাচলের সাময়িক অসুবিধা সম্পর্কে আমরা অবহিত আছি। প্রস্তাবিত সাব-প্রজেক্টের উন্নয়ন আমাদের সবার জন্য অতীব প্রয়োজন। সর্বসাধারণের সুবিধার্থে এবং উন্নয়নের স্বার্থে আমরা স্বেচ্ছায় পৌরসভার কাছ থেকে ক্ষতিপূরণ গ্রহণ করছি না। নির্মাণ কাজের সময় সংশ্লিষ্ট কর্মকর্তা এবং ঠিকাদার কর্মীদের প্রয়োজনীয় সার্বিক সহযোগিতা করবো। উপস্থিত সর্ব সম্মতিক্রমে স্বেচ্ছায় ও সজ্ঞানে এই অনাপত্তি পত্র প্রদান করলাম এবং ভবিষ্যতে এ বিষয়ে আমরা কোন প্রকার ক্ষতিপূরণ দাবি করবো না।

No objection

A discussion meeting was held on social and environmental safeguards regarding the impact and temporary inconvenience caused by the construction activities of the mentioned sub-project of the CTCRP project, which is managed by the Department of Local Government Engineering and supported by ADB. We, the locals, are aware of the minor impact and temporary inconvenience caused to us due to the sub-project's construction work. The development of the proposed sub-project is very necessary for all of us. For the convenience of the general public and in the interest of development, we are not voluntarily accepting compensation from the municipality. We will cooperate with the concerned officers and contractor workers during construction. With the consent of all present, we voluntarily and knowingly provide this no-objection letter and will not demand any compensation in the future.
