A. General

|--|--|
| 1. Scope of Application | 1.1 In connection with the Invitation for Prequalification ¹ indicated in Section II, Prequalification Data Sheet (PDS), the Employer, as defined in the PDS , issues this Prequalification Document ("Prequalification Document") to prospective applicants ("Applicants") interested in submitting applications ("Applications") for prequalification to bid for the Works described in Section VII, Scope of Works. In case the Works are to be bid as individual contracts (i.e. the slice and package procedure), these are listed in the PDS. The International Competitive Bidding ("ICB") number corresponding to this prequalification is also provided in the PDS . |
| 2. Source of Funds | 2.1 The Borrower or Recipient (hereinafter called "Borrower") indicated in the PDS has applied for or received financing (hereinafter called "funds") from the International Bank for Reconstruction and Development or the International Development Association (hereinafter called "the Bank") towards the cost of the project named in the PDS . The Borrower intends to apply a portion of the funds to eligible payments under the contract(s) resulting from the bidding for which this prequalification is conducted. Payment by the Bank will be made only at the request of the Borrower and upon approval by the Bank, and will be subject, in all respects, to the terms and conditions of the loan (or financing) agreement. The loan (or financing) agreement prohibits a withdrawal from the loan (or credit) account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations. No party other than the Borrower shall derive any rights from the loan (or financing) agreement or have any claim to the proceeds of the loan (or credit). |
| 3. Corrupt and Fraudulent Practices | <p>3.1 The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in Section VI.</p> <p>3.2 In further pursuance of this policy, Applicants shall permit and shall cause its agents to permit the Bank to inspect all accounts, records and other documents relating to the submission of the Application, bid submission (in case prequalified), and contract performance (in</p> |

the case of award), and to have them audited by auditors appointed by the Bank.

4. Eligible Applicants

- 4.1 Applicants shall meet the eligibility criteria as per clause 5.1. For the purpose of applying the eligibility criteria listed in this Clause 4 and 5, references to the "Applicant" include all entities involved or intended to be involved with the proposed Works (including all partners and any of their affiliates that directly or indirectly control, or are controlled by or are under common control with the firm), specialized sub-contractors, consultants, manufacturers or suppliers (as mentioned in Form ELI-1.2 Applicant's JV Member's Information Form), and the personnel of each, for any part of the contract including related services.
- 4.2 An Applicant may be a firm that is a private entity, a government-owned entity—subject to ITA 4.9 - or a combination of such entities in the form of a joint venture ("JV") under an existing agreement or with the intent to enter into such an agreement supported by a letter of intent. In the case of a JV, all members shall be jointly and severally liable for the execution of the Contract in accordance with the Contract terms. The JV shall nominate an authorized representative who shall have the authority to conduct all business for and on behalf of any and all the members of the JV during the prequalification process, bidding (in the event the JV submits a bid) and during contract execution (in the event the JV is awarded the Contract). Unless specified in the **PDS**, there is no limit on the number of members in a JV.
- 4.3 A firm may apply for prequalification both individually, and as part of a joint venture, or as a sub-contractor. If prequalified, it will not be permitted to bid for the same contract both as an individual firm and as a part of the joint venture or as a sub-contractor. However, a firm may participate as a sub-contractor in more than one bid, but only in that capacity. Bids submitted in violation of this procedure will be rejected.
- 4.4 A firm and any of its affiliates (that directly or indirectly control, are controlled by or are under common control with that firm) may submit its application for prequalification either individually, as joint venture or as a sub-contractor among them for the same contract. However, if prequalified only one prequalified applicant will be allowed to bid for the same contract. All bids submitted in violation of this procedure will be rejected.
- 4.5 An Applicant may have the nationality of any country, subject to the restrictions pursuant to ITA 5.1. An Applicant shall be deemed to have the nationality of a country if the Applicant is constituted,

incorporated or registered in and operates in conformity with the provisions of the laws of that country, as evidenced by its articles of incorporation (or equivalent documents of constitution or association) and its registration documents, as the case may be. This criterion also shall apply to the determination of the nationality of proposed specialized sub-contractors or suppliers for any part of the Contract including related Services.

- 4.6 Applicants shall not have a conflict of interest. Applicants shall be considered to have a conflict of interest, if they participated as a consultant in the preparation of the design or technical specifications or have been hired or proposed to be hired by the Employer or Borrower as Engineer for contract implementation of the works that are the subject of this prequalification.
- 4.7 An Applicant that has been sanctioned by the Bank in accordance with the above ITA 3.1, including in accordance with the Bank's Guidelines on Preventing and Combating Corruption in Projects Financed by IBRD Loans and IDA Credits and Grants ("Anti-Corruption Guidelines"), shall be ineligible to be prequalified, to bid for, awarded a Bank-financed contract or benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall have determined.
- 4.8 The list of debarred firms and individuals is available as specified in the **PDS**.
- 4.9 Government-owned enterprises or institutions in the Employer's Country may participate only if they can establish that they (i) are legally and financially autonomous (ii) operate under commercial law, and (iii) are not dependent agencies of the Employer². - 4.11 An Applicant shall provide such evidence of eligibility satisfactory to the Employer, as the Employer shall reasonably request.

5. Eligibility

- 5.1 Firms and individuals may be ineligible if they are nationals of ineligible countries as indicated in Section V. The countries, persons or entities are ineligible if (a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the supply of goods or the contracting of works or services required; or (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's country prohibits any import of goods or contracting of works or services from that country, or any payments to any country, person, or entity in that country.

3. General Information

3.1 Information on the Project Country

Bangladesh has a total area of 147,570 sq. km and is surrounded to the west, north and east by India, and shares a south- eastern border with Myanmar for 283 km. To the south is the Bay of Bengal.

The topography is characterized by alluvial plains, bound by a range of sub mountain regions and forested hills. The great rivers, the Ganges (or Padma) and Brahmaputra (or Jamuna) divide the country into six major regions which also correspond to the major government divisions. The alluvial plains that make up 90% of the country are very flat and never rise more than 10m above sea level. The country lies on a major geographical fault, although major seismic events are rare. The climate is subtropical and tropical and temperatures range from an average daytime high of 21°C in the cooler months of the year to 35°C in the hottest months. Annual rainfall varies from 1,000 mm up to 5000 mm, with three-quarters of the annual rainfall occurring between June and September. A substantial area of the country is flooded during a normal monsoon season. During the last 200 years about 50 major cyclones hit the southern coast of the country and the wind speed of which reached as high as 260Km/hr.

Major ports: Chittagong is the main busy seaport of Bangladesh. Mongla (near Khulna) is the other sea port which is being upgraded by GOB.

Airports: Dhaka is the standard international airport, whereas Chittagong and Sylhet are two smaller international airports with limited facilities.

The latitudes and the longitudes of two main cities in Bangladesh are as follows:

Location	Lat.	Long.
<u>Dhaka</u>	<u>23°37'N</u>	<u>90°30'E</u>
<u>Chittagong</u>	<u>22°21'N</u>	<u>91°50'E</u>

3.3 Access to Project Area

Most of the project area is accessible from Dhaka by road and water transport, while access to some islands from the main land is only by the water transport.

3.4 Climate of the Project Area

Bangladesh has a tropical monsoon-type climate, with a hot and rainy summer and a pronounced dry season in the cooler months. January is the coolest month of the year, with temperatures averaging near 26 deg C (78 d F), and April the warmest month, with temperatures ranging between 33 deg and 36 deg C (91 deg F and 96 deg F). The climate is one of the wettest in the world; most places receive more than 1,525 mm (60 in) of rain a year, and areas near the hills receive 5,080 mm (200 in). Most rain falls during the monsoon (June-September) and little during the dry season (November-February).

Average Temperature and Rainfall

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Max. Temp (°C)	25.4	28.1	32.3	34.2	33.4	31.7	31.1	31.3	31.6	31.0	28.9	26.1
Min. Temp (°C)	12.3	14.0	19.0	23.1	24.5	25.5	25.7	25.8	25.5	23.5	18.5	13.7
Rainfall (mm)	07.0	19.8	40.7	110.7	257.5	460.9	517.6	431.9	289.9	184.2	35.0	09.4

The coastal districts of Bangladesh, particularly those flanking the Meghna estuary, are susceptible to effects of cyclones. In the early summer (April and May) and late in the monsoon season (September to November) storms of high intensity often occur creating winds of 20-250 Km per hour speeds.

Bangladesh is one of the most flood-prone countries in the world. Essentially, it's the flood plain where two huge rivers—the Ganges and the Brahmaputra—carry spring snowmelt from the towering Himalayan Mountains to the sea. When the rivers flood, so does Bangladesh.

3.5 Construction Material

All types of Construction material are available in Bangladesh, which may, however need to be transported over long distances.

Single grade fine sand is available from rivers/ streams within the Project area. Well-graded coarse sand is available from the huge sand deposits in the northern District of Sylhet and in limited areas

[Handwritten signatures]

of northern districts Panchaghar and Lalmonirhat.

Good quality stones as boulder and gravel are available from the deposits of rivers in northern part of Sylhet and also in limited areas of northern districts Panchaghar and Lalmonirhat. Rock materials are also available from Madhaypara Hard Rock Mining Project, which are to be used in all concrete and other ancillary works as far as they satisfy the Specification requirement.

There is a scarcity of good quality stone in the country. Stones are also imported from across the national boundary.

Well-burnt brick aggregates are used in the sub base and lower part of the base. Brick fields exist within reasonable distances from the Project sites. Good quality well-burnt bricks can be available if coal burning is ensured.

Bitumen (80/100grade) is produced only by one refinery in the country. The refinery may also supply bitumen of grade 60/70 if the order is placed for sufficient quantity and adequately in advance of the requirement. The production of the refinery is not adequate to meet the demand of the country. It may require import.

Cement is produced in the country. However, indigenous cement satisfies about 75% of total need of the country; the shortfall is being met by importation.

Reinforcing steel (both mild and high grade) is produced in the country. However, a guarantee of quality, quantity and delivery schedule is important.
