The following issues are changed or bug fixed in this release (Version No. 8.0.0):

1. Tender validity extension module is re-coded in such way that the bidders get response time as specified by the procuring entity complying with the legal provision of the Rule. The provision also ensures that the bidders will receive request for extension of validity before ten (10) of expiring the tender validity.
2. Revision feature is provided for APP and from now PE can revise the approved APP
3. PE can work/edit on previous tender's document (which was prepared for his earlier tender) for preparing the new tender document; this is also same for re-tendering case.
4. Provisional sums, fixed amount or supplied items from PE etc. with amount is incorporated in the system.
5. In the TER2 (Technical Responsiveness Report), Details information of Experience, Turnover and Liquid Asset can be separately inserted.
6. Performance Monitoring User can view PROMIS Indicator Report.
7. Project Director (PD) Users can view PROMIS Indicator Reports on Project basis.
8. Official estimate cost is shown in words under tender notices TAB
9. A new feature link is added in Homepage to inform implementing agencies and bidder about new release and additional feature.
10. At Tender Evaluation part, unit-wise comparison is incorporated to justify front loading & compare with market price.
