## Glossary

**“Census”** is a complete count of the population affected by a project activity including collation of demographic and property information. This will identify and determine the number of Project Affected Persons (PAP) and the nature and levels of impact.

**“Cut-off date”** is the date by which PAPs and their affected assets, as relevant, have been identified and new entrants to the site cannot make claims to compensation or resettlement assistance. Persons whose ownership, use of occupancy prior to the cut-off date can be demonstrated remain eligible for assistance, regardless of their identification in the census.

**“Involuntary resettlement”** Involuntary Resettlement refers to two distinct but related processes. Displacement is a process by which development projects cause people to lose land or other assets, or access to resources. This may result in physical dislocation, loss of income, or other adverse impacts. Resettlement or rehabilitation is a process by which those adversely affected are assisted in their efforts to improve, or at least to restore, their incomes and living standards.

**“Land acquisition”** refers to all methods of obtaining land for project purposes, which may include outright purchase, expropriation of property and acquisition of access rights, such as easements or rights of way. Land acquisition may also include: (a) acquisition of unoccupied or unutilized land whether or not the landholder relies upon such land for income or livelihood purposes; (b) repossession of public land that is used or occupied by individuals or households; and (c) project impacts that result in land being submerged or otherwise rendered unusable or inaccessible.

**“Livelihood”** refers to the full range of means that individuals, families and communities utilize to make a living, such as wage-based income, agriculture, fishing, foraging, other natural resource- based livelihoods, petty trade and bartering.

**“Project affected persons” (PAPs)** means persons who are impacted by involuntary resettlement as defined below.

**Replacement Cost** refers to a type of compensation given to those who are being displaced from their land or homes. The replacement cost is an amount assessed for the affected properties which is sufficient to purchase alternative land or asset in an open market plus all transaction costs involved in receiving compensation and replacement of lost assets.

**“Resettlement Action Plan (RAP)”** is a resettlement instrument (document) to be prepared when subproject locations are identified. RAPs contain specific and legally binding requirements to be abided by to resettle and compensate the affected party before implementation of the project activities causing adverse impacts.

**“Resettlement Assistance”** means the measures to ensure that project affected persons who may require to be physically relocated are provided with assistance such as moving allowances, residential housing or rentals whichever is feasible and as required, for ease of resettlement during relocation.

**“Restrictions on land use”** refers to limitations or prohibitions on the use of agricultural, residential, commercial, or other land that are directly introduced and put into effect as part of the project. These may include restrictions on access to legally designated parks and protected areas, restrictions on access to other common property resources, restrictions on land use within utility easements or safety zones.

**“Security of tenure”** means that resettled individuals or communities are resettled to a site that they can legally occupy, where they are protected from the risk of eviction and where the tenure rights provided to them are socially and culturally appropriate. In no event will resettled persons be provided tenure rights that are in effect weaker than the rights they had to the land or assets from which they have been displaced.

**Informed consent** means the people involved are fully knowledgeable about the project and its implications and consequences and freely agree to participate in the project. Power of choice refers to the people involved have option to agree or disagree, without adverse consequences imposed formally or informally by others.

# Executive Summary

## Introduction

I. The Government of Bangladesh (GoB) through the Ministry of Finance (MoF) is implementing the Western Economic Corridor and Regional Enhancement Program (WeCARE Program) with the Roads and Highways Department (RHD) and the Local Government Engineering Department (LGED) as the main implementing agencies with the support from the World Bank (WB). This program is planned to be implemented in three phases over 10 years in 10 districts including Jashore, Jhenaidah, Magura, Chuadanga, Satkhira, Natore, Sirajganj, Kushtia, Pabna and Meherpur. The anticipated time for phase-1 is five years for four districts Jashore, Jhenaidah, Magura, and Chuadanga while phase-3 and 4 is expected to be over the next five years.

II. There are four components of the program while the LGED components are comprised of Component 2: Upgrading secondary and tertiary roads and complementary logistics infrastructure and services: Component 3: Project Implementation Support and Sustainability: Component 4: COVID-19 Relief and Recovery.

## Project Description

III. There is total 16 contract packages (CW) under phase -1 of WeCARE project to be implemented by LGED. Package CW-06 covers the improvement of 2 GCM named Khamarpara and Langolbandh and 23.74 km of adjacent roads under the Jhenaidah and Magura district.

## Resettlement Impacts Identified

IV. The survey result reveals that a total of 281 households and 9 CPR will be affected during the construction period. Of them, 83 are squatters from two GCM along with 198 title holders from Jhenaidah and Magura district during upgrading of road network.

V. The census identified that 206 commercial structures will require to be dismantled out of which 204 business will be affected due to shut down of shops for relocation of business during construction period. The survey also identified that 80 Vulnerable HHs, 3 wage laborers, and 61 tenants will be affected from the affected structure by the project intervention. Of the total affected HHs, 826 PAPs have been identified and will be affected by the project intervention but none of them will be physically displaced since their residential premises will be affected only partially and they do not need any relocation.

## Relocation and Livelihood Restoration

VI. No land acquisition will be required for upgrading of GCMs under CWs of this RAP. None of the affected shop owners and vendors will need any permanent relocation during or after constructions of GCM, as the GCM activities will be carried out even during construction period in the available alternative location of the selected GCM. The shop owners and vendors will shift their business at the preferred alternative location within the GCM for the time being

during construction period. The project will manage the shifting process in consultation with market committee. For the construction/widening of the proposed Road, a total 4.82-acre land will be required of which 4.625 acre private land for acquisition and 0.1950 acre Government land owned by DC. But no permanent relocation has been identified during or after constructions of adjacent road network. To restore livelihood of the affected entities, LGED will provide resettlement compensations along with other resettlement benefits including compensation for structure, transfer & reconstruction grant, loss of business, loss of wage labour, loss of income from rented-out and rented in commercial premises and as well as grants for vulnerable household and seed grants for vulnerable HHs. No resettlement site at alternative places will be required for the affected entities under these CWs.

### **Institutional and Implementation Arrangements**

VII. The overall responsibility of environmental and social performance of RAP implementation of the WeCARE will rest with the PIU. Aside from the PIU safeguard specialist and RAP implementing NGO/consulting firm, the PIU will engage Project Management and supervision Consultant (PMSC) to supervise the contractors including social safeguard management requirements and measures on their execution of construction-related, infrastructural development and other activities that have significant negative social impacts identified in the RAP. During implementation of the program, LGED, consulting firms, contractors and relevant officials will be **trained** on ESF. As per the proposal, efforts will be made to complete the RP implementation process in about 9 months' time including a margin of 03 months to redress any unforeseen situations or circumstances that may arise during the implementation. GRC, JVC, PVAC, and RAC committee have been formed on April 24, 2022 to compensate the affected persons/families for the land acquisition, structure, tree, business, and other impact during the project implemented by LGED with the financial assistance of the World Bank. Committees will take effective measures solving complaint from affected persons within a short period of time and maintaining transparency. Upon approval by WB and Ministry of Local Government Division the RAP will be implemented.

### **Cost Estimate and Budget**

VIII. The total estimated RAP budget stands at BDT **132,098,416** for package CW-06, of which 2 GCMs require BDT **18,618,214** and road network required BDT **113,480,202**.

## **1 Introduction**

1. This Resettlement Action Plan (RAP) is prepared by Local Government Engineering Department (LGED) in accordance with the project's Resettlement Policy Framework (RPF) along with the Government of Bangladesh's (GoB) legal policy and World Bank's (WB) Environmental and Social Framework (ESF), specifically environmental and social standard-5 "Land Acquisition, Restrictions on Land and Involuntary Resettlement".

2. The program will cover 10 districts including Jashore, Jhenaidah, Magura, Chuadanga, Satkhira, Natore, Sirajganj, Kushtia, Pabna and Meherpur. The anticipated time for phase-1 is five years for four districts Jashore, Jhenaidah, Magura, and Chuadanga while phase-3 and 4 is expected to be next five years. LGED will develop and upgrade complementary logistics infrastructure and services including rural markets in selected growth centres; and upgrade secondary and tertiary road network serving selected markets. There are four components in this program and among them component 1 will be implemented by RHD; component 2 and Component-3 will be implemented by LGED; and component 4 will be jointly implemented by LGED and RHD.

3. This RAP sets out the principles and objectives governing preparation and implementation of this social risks and impacts, mitigation measures in accordance with the RPF requirements. The aim is to ensure that adverse socio-economic impacts of the programs on Project Affected Persons (PAPs) are adequately mitigated, and the PAPs are not worst off as a result of project interventions. This RAP for CW-06 is prepared to guide resettlement and the consequent preparation and implementation of the project by LGED under the program.

### **1.1 Package CW-06**

4. This RAP for packages CW-06 is prepared to guide resettlement and the consequent preparation and implementation of the project by LGED under the Western Economic Corridor & Regional Enhancement Program -LGED (WeCARE-LGED) financed by the World Bank.

5. This Package includes 2 GCMs and 23.74 km adjacent Roads to improve connectivity, market, and infrastructure improvement under WeCARE Program in project area. There will be both government and private land under acquisition for this package. Most of the shops in both the GCMs are made of CI sheet roof and brick wall. For the improvement of those GCMs, some business premises will be affected temporarily. Both commercial and residential structure will be affected partially during upgrading of road network while there will be no relocation impacts identified.

### **1.2 Socio-Economic Profile**

6. The census and inventory of losses survey identified 281 households with a total population of 826. The average HH size is 2.94 which are lower than the national average HH size of 4.06 in 2016. Among the affected households more than 6% are headed by women. It is seen that 38.5% males and 31.96% females among the PAPs are in working age (15 to 60). A total of 80 vulnerable people has been identified during the survey, among them, 68 HHs have been identified as income under the poverty line (BDT 10,500/month).

**Table 1: Socio-Economic Profile of the Affected Households**

Socio-economic information		Male	%	Female	%	Total	Grand Total
Household	HHH	263	93.59	18	6.41	281	2.94
	Family Member	448	54.24	378	45.76	826	
Age category	Up to 15	69	8.35	85	10.29	154	826
	15 to 60	318	38.50	264	31.96	582	
	More than 60	61	7.38	29	3.51	90	
Marital status	Married	296	35.84	229	27.72	525	826
	Unmarried	149	18.04	128	15.50	277	
	Widow/ Widower	3	0.36	21	2.54	24	
Educational status	Illiterate	24	2.91	31	3.75	55	826

	Honors and above	57	6.90	22	2.66	79	
Income level	Up to 10500	63	22.42	5	1.78	68	281 (avg. 232450 BDT)
	10500-30000	192	68.33	5	1.78	197	
	Above 30000	16	5.69	0	0.00	16	
Religion	Islam	231	82.21	18	6.41	249	281
	Hindu	32	11.39	0	0.00	32	

### 1.3 Project Cut-off Date: Title and Non-Title Holder

7. The RPF for this project requires that the economic, social, and environmental risks are mitigated, and livelihoods of the displaced persons are restored. The unavoidable impacts related to project implementation was identified through census and socio-economic survey. Consultation meeting has been held at the GCMs and disseminated project information, roll of the project and the affected people, compensation payment procedure, cut-off date, etc. A comprehensive resettlement action has been prepared for the affected people to compensate them following the ARIPA 2017 and RPF.

8. Cut-off dates are applicable for the affected people in terms of assessment of compensation and preventing fraudulent claims. Date of commencement of census and inventory of losses survey are the cut-off dates for the squatters. Cut-off date was established

for every growth centre during consultation meetings. The cut-off date was declared during conducting consultation meetings in the respective area. All the GCM were video filmed before conducting survey to prevent further fraudulent claims.

**Table 2: Cut-off date for non-titled**

<b>CW</b>	<b>GCM</b>	<b>Date</b>
CW-6	Khamarpara	29 July-2022.
	Langland	29 July- 2022.

## 2 Land Acquisition and Resettlement (LA&R) Impacts

### 2.1 Introduction

9. Census and Inventory of Loss (IOL) were conducted to determine the overall impact of the project. Both title (198 HH) and non-title (83 HH) HH will be affected during the intervention of the package CW-06. There will also be a number of structures that will be affected during the project intervention. All the affected structure is on both government and private land. In case of impact on structures or other assets, adequate compensation and resettlement benefits will be paid following the RPF for LGED under WeCARE project.

### 2.2 Magnitude of Land Acquisition and Resettlement Impacts

10. The survey result reveals that a total of 281 households and 9 CPR will be affected with economic and physical displacement for relocation of household and business premises during the construction period. Of which 83 squatters from two GCM and 198 title holders from Jhenaidah and Magura district during upgrading of road network.

11. The census identified that 206 commercial structures will require to be dismantled and 204 business will be affected due to shut down of shops for relocation of business during construction period. The survey also identified that 3 wage laborers and 61 tenants and 80 vulnerable HHs will be affected from the affected shops by the project intervention. Of the total affected HHs, 826 PAPs have been identified and will be affected by the project intervention but none of them will be physically displaced since their residential premises are not affected. Table below shows the Eps by impacts.

**Table 3: Total entities affected by the project.**

Sl. No.	Project Impacts	GCM (on Govt land) Non titled HHs		Road (on private land)- Titled HHs		Total
		Khamarpara	Langolband	Jhenaidah	Magura	
A.1	Affected private land			0.2675	4.3575	4.625
A.2	Affected Government land (DC)			0.0075	0.1875	0.195
B.1	Number of HH losing Structure	55	28	5	137	225
B.2	Number of HH losing only tree				56	56
B.3	Number of CPR	0	1	0	8	9
<b>B</b>	<b>Total number of Project Affected Units</b>	<b>55</b>	<b>29</b>	<b>5</b>	<b>201</b>	<b>290</b>
D	Total number of persons affected from entities	162	28	15	621	826
E	Number of tenants affected	18	0	0	43	61
F	Number of business loss (owner + tenant)	52	53	3	96	204
G	Number of wage labourer affected	0	0	1	2	3
H	Vulnerable HHs	12	0	0	68	80

Source: Census and IOL survey, November to December 2022

12. Total 9 CPR will be affected during the implementation of CW-06. List of the CPR shown below table:

**Table 4: Total entities affected by the project.**

Sl	Location	Name of CPR
1	Magura	Dhokkin Chor Gualpara Panjekana Jame Mosjid
2	Magura	Langolabad High School
3	Magura	Nangolabad Hafizia Madrasha
4	Magura	Sardar Kalinagar Jame Mosjid
5	Magura	Harindi Sorbo Jonin Kali Mondir
6	Magura	Sreepur Union Bhumi office
7	Magura	Shreepur Thana
8	Magura	Sreepur Upo-shastho Kendro
9	Langolband	Sreepur Upazila Pashid

## 2.3 Scope of Land Acquisition

13. For preparation of LAP surveyor and data collection team visited the project area to identify the resettlement boundary and measure the impact. However, the GCM doesn't required any private land. Only the adjacent road (Sreepur-Langalbandh Road (ID No. 255952002) will require private land: in total 4.82 acres from 11 mouzas. Of this total land, 0.1950 acre is from government and 4.625 acres are private land.

**Table 5: Details of land acquisition**

District	Mouzas	Government	Private	Total
Magura	Boroudas	0.0000	0.5500	0.5500
	Chaturiya		0.1400	0.1400
	Echapur		0.6300	0.6300
	Goyalpara	0.0100	0.3500	0.3600
	Horindy	0.0100	0.8000	0.8100
	Kalinagor	0.0025	0.8925	0.8950
	Langalabanda	0.0650	0.1350	0.2000
	Nowgaon	0.0000	0.3500	0.3500
	Sheepur	0.1000	0.3850	0.4850
	Zoka	0.0000	0.1250	0.1250
	<b>Total</b>	<b>0.1875</b>	<b>4.3575</b>	<b>4.5450</b>
Jhenaidah	Malthia	0.0075	0.2675	0.2750
	<b>Grand Total</b>	<b>0.1950</b>	<b>4.6250</b>	<b>4.8200</b>

14. Total 18 categories of land will be affected during the intervention of road network of package CW-06. Of the total affected land, null (Plainland that gives 2 or 3 crop) category is highest followed by homestead. The category of land was identified by the khatian.

**Table 6: Category of land**

Land category	Jhenaidah	Magura	Grand Total
Bashjar (bamboo Bush)		0.1625	0.1625
Dackghor (post office)		0.0025	0.0025
Dangga (Cultivable high-class land)		0.6345	0.6345

Land category	Jhenaidah	Magura	Grand Total
Ditch		0.1300	0.1300
Dokan (shop)		0.1600	0.1600
Edgah (open high land for prayer)		0.0100	0.0100
Field		0.0125	0.0125
Garden		0.3600	0.3600
Graveyard		0.0600	0.0600
Homestead	0.0845	1.1000	1.1845
Madrasha (Education institute)		0.0125	0.0125
Null (Plain 2 or 3 crop land)	0.0025	1.4555	1.4580
Pakavite (Pucca floor)		0.0250	0.0250
Pond		0.0725	0.0725
Road		0.0025	0.0025
Sawmill	0.0200	0.0125	0.0325
Vita (high ground suitable for a house)	0.1605	0.1450	0.3055
<b>Grand Total</b>	<b>0.2675</b>	<b>4.3575</b>	<b>4.6250</b>

## 2.4 Use of Affected Structure

15. Impact by use of structure shows that all the affected structures are used commercially. Total 352 structure owned by 234 entities will be affected during the intervention of package CW-06. Of the total structure, 206 are used as commercially, 33 as residential will be affected partially and 3 as both commercial and residential (affected partially). Apart from this, 110 secondary structures will also be affected by the project. It was identified during IoL survey that, of the total 204 affected business, 143 businesses are operated by structure owners and 61 operated by tenant.

**Table 7: Use of affected structure**

SL No	Impacts	Un it	GCM (on Govt land) Non titled HHs		Road (on private land)-Titled HHs		Total
			Khamarpara	Langolband	Jhenaidah	Magura	
<b>1</b>	<b>Number of structures</b>	<b>No</b>	<b>66</b>	<b>55</b>	<b>10</b>	<b>221</b>	<b>352</b>
1.1	Affected Commercial structure	No	58	51	7	90	206
1.2	Affected residential	No	0	3	1	29	33
1.3	Both Residential and commercial	No				3	3

## 2.5 Impact on Structure

16. The IOL survey identified that total 242 primary and 110 secondary structures will be affected that covered 55746 sft floor area. Total 352 structures belong to 234 owners. Detailed of the impacts shows in the following tables.

**Table 8: Impact on Structure**

	Name of the Location	Total Entities	Affected by only Primary Structures	Affected by only secondary structure	Total
GCM (on Govt land) Non titled HHs	Khamarpara	55	58	8	66
	Langolbandh	29	57	1	58

<b>Total</b>		<b>234</b>	<b>242</b>	<b>110</b>	<b>352</b>

Source: Census and IOL survey, November to December 2022

### 2.5.1 Impact on Primary Structure

17. Various categories of commercial and residential structures have been identified within the proposed area. These include Pucca (concrete roof with bricks wall), Semi-pucca (CI sheet roof with bricks wall), Tin-made (CI sheet roof and fence), Katcha (CI sheet roof with wooden/bamboo fence) and Thatched (straw roof with bamboo fence). There will be both titled (13350 sft) and non-titled (37448 sft) structure affected. Out of the total affected structures (50798 sft), major quantity is tin made (27244 sft) followed by Katcha (14002 sft), Semi-pucca (8404 sft), and Pucca (1148 sft).

**Table 9: Quantity of affected primary structures.**

S. L	Category of structure	Unit	GCM (on Govt land) Non titled HHs			Road (on private land)-Titled HHs			Total
			Khamar para	Langolbandh	Total in GCM	Jhenaidah	Magura	Total in road

6	Total	Sft	10098	27350	37448	420	12930	13350	50798

Census and IOL survey, November to December 2022

## 2.6 Impact on Secondary structure

18. Of the total 110 secondary structure, 101 is located on private structure and 9 on government land which include 81 verandas covering 4748 sft area is highest among secondary structures. There is also boundary wall, RCC pillar and toilet that will be demolished by the project.

**Table 10: Quantity of affected secondary structures.**

Type	GCM (on Govt land) Non titled HHs				Road (on private land)-Titled HHs			
	Khamarpara		Langolbandh		Jhenaidah		Magura	
	No	Quantity	No	Quantity	No	Quantity	No	Quantity

*Census and IOL survey, November to December 2022*

## 2.7 Impact on trees

19. It was identified during IOL survey that total 1564 trees will be affected from Magura District. of which 948 on private land and 616 on government land. Of the total land, 52.11% are large, 23.02% medium, 21.29% small and 3.58% plant.

**Table 11: Quantity of affected trees**

Type of Tree	Magura			
	On Private Land	On Govt. Land	Total	%
Large	642	173	815	<b>52.11%</b>
Medium	137	223	360	<b>23.02%</b>
Small	158	175	333	<b>21.29%</b>
Plant	11	45	56	<b>3.58%</b>
<b>Total</b>	<b>948</b>	<b>616</b>	<b>1564</b>	<b>100</b>

*Census and IOL survey, November to December 2022*

## 2.8 Temporary Loss of Income from Affected Business

20. As per the census and IOL data, a number of 206 person will lose commercial structure and 204 will lose their business.

**Table 12: Number of business units affected.**

Type	Name of Market	Affected persons losing business structures	Affected persons losing business income
GCM (on Govt land) Non titled HHs	Khamarpara	58	52
	Langolbandh	51	53
Road (on private land)-Titled HHs	Jhenaidah	7	3
	Magura	90	96
<b>Total</b>		<b>206</b>	<b>204</b>

*Census and IOL survey, November to December 2022*

### 2.8.1 Impact on Wage Labor

21. As per the census, total 3 employees of shops/commercial enterprises have been identified who will lose their income due to the project. It is to be noted that only regular (monthly salaried) wage laborers have been enlisted during the survey. Daily wage earners/day laborers are not engaged by a particular shop owner. They work on 'no work no pay' basis. Therefore, day laborers will not get resettlement assistance from the project.

**Table 13: Number of Wage Labor**

Type	Affected wage laborers/employees by location	Number of wage laborers
GCM (on Govt land) Non titled HHs	Khamarpara	0
	Langolbandh	0
Road (on private land)-Titled HHs	Jhenaidah	1
	Magura	2
Total		3

*Census and IOL survey, November to December 2022*

## 2.9 Impact on Vulnerable People

22. Total 80 vulnerable people found during the IOL survey including income poverty, female-headed, disabled-headed. They will receive resettlement benefits, Income livelihood restoration program, skill development training, and linkage with different GO/NGO programs following the RPF of this project.

**Table 14: Number of vulnerable**

Type of vulnerable	GCM (on Govt land) Non titled HHs		Road (on private land) -Titled HHs		Total
	Khamarpara	Langolbandh	Jhenaidah	Magura	
People who are physically disable	0	0	0	2	2
Income poverty (Income less than 10,500[1])	11	0	0	57	68
Female Headed HHs	1	0	0	9	10
Total	12	0	0	68	80

*Source: Census and IOL survey, June to July 2022*

## 2.10 Categories of Losses Based on Entitlement Matrix

23. There is an entitlement matrix adopted in the resettlement policy framework for all the package of WeCARE program. Package CW-06 have only five applicable entitles considering category of loses. There are both titled and non-titled affected HH identified during the IoL survey. Therefore, physical displacement of the people from their place of residence will also take place. There is total 50798 sft from 242 primary structures which is owned by 234 entities. Due to impact on the commercial structure 204 business operators will be affected, Total 61 tenants and 3 wage laborers will also be affected due to dismantling of the business premises. Table below shows the overall impacts on the structure as per entitlement matrix.

**Table 15: Categories of losses based on Entitlement Matrix**

SI #	Losses Items	Unit	GCM (on Govt land) Non titled HHs		Road (on private land)-Titled HHs		Total
			Khamarpara	Langolbandh	Jhenaidah	Magura	
1	Primary Structures	Sft.	10098	27350	420	12930	50798
2	Secondary Structures	Quantity	618	4	57	5979	6658
3	Tree					1564	1564
4	Compensation for business losses	Nos.	52	53	3	96	204
5	Wage Labor	Nos.	0	0	1	2	3
6	Loss of Income from rented-out commercial premises	Nos.	18	0	0	43	61
7	access to rented-in commercial premises	Nos.	18	0	0	43	61
8	Vulnerable household.	Nos.	12	0	0	68	80

## 3 Consultation and Participation

### 3.1 Introduction

24. The Local Government Engineering Department (LGED) now implementing rural connectivity, market, and infrastructure improvement in the four (4) WeCARE Program Districts, namely Jashore, Jhenaidah, Magura, and Chuadanga in phase 1. The stakeholder's consultation meetings (SCMs) for package CW-06 covers the improvement of 2 GCM and the widening of 30 roads adjacent to the road network under the project area. During preparation of the RAP, LGED has conducted 2 consultation meetings and workshops with different stakeholders. The discussion and the concerns and responses are extensively documented in SEP. The summary of consultation meeting is given below:

**Table 16: Summary of Consultation Meetings and FGDs**

CW	GCM	Date	Venue	Main Participants Groups	No. Participants		
					M	F	T
CW-06	Langalbandh	29 July 2022	Langalbandh Bazar, Sreepur Upazila, Magura District.	Local community along with LGED personnel and LGED consultants, NGO workers, Local Chairman, Teachers, students, freedom fighter, public representatives, local politicians, Businessman, Local Elites etc.	75	0	75
CW-06	Khamarpara	29 July 2022	Sreekole Bazar, Khamarpara, Sreepur Upazila, Magura District.	Local community along with LGED personnel and LGED consultants, NGO workers, Local Chairman, Teachers, students, freedom fighter, public representatives, local politicians, Businessman, Local Elites etc.	37	1	40
<b>Total</b>					<b>112</b>	<b>1</b>	<b>113</b>

### 3.2 Outcomes of Consultation Meetings

25. During preparation of RAP, LGED has taken stakeholders opinion and those are incorporated with the entitlement matrix preparation. Consultations have been conducted

with the affected PAPs, local stakeholders, and beneficiaries while their feedback and suggestions have also considered in this RAP. The summary of outcomes is given below-

### 3.2.1 Proposed outcomes from the consultations meeting.

26. The Following issues were discussed by the audience:

- ❑ Adequate compensation such as business loss, loss of structure, livelihood, loss of employment, tenants should be provided.
- ❑ The non-titled persons will be affected and should be considered for resettlement supports
- ❑ All the internal roads of the Growth Center should be made by RCC/CC or uni-block.
- ❑ Road should be wide, full carpeting and pedestrians' facilities for local peoples.
- ❑ Load bearing capacities should be calculated before construction.
- ❑ The local laborers to be given priority in the project work.
- ❑ Grievance Redress Mechanism must be communicated in clear terms.
- ❑ Arrangement for alternative means of communication for ease of the elderly, disabled, pregnant women and children.
- ❑ People expressed concerns over the influx of migrant workers for the project's construction work and their possible engagement in illicit sexual relationships with women and children.
- ❑ Arrangement of Drainage System and dedicated Solid including plastic and liquid waste dumping place and their effective management by turning garbage into renewable energy.
- ❑ Expansion of Growth Center Market (GCM) facilities, covering- construction of cold chain facilities, all weather shed for dumping agro products, vehicle parking area for wholesale buyer's trucks, gender segregated toilets, childcare/breastfeeding centers, Internet kiosks, medical center with a laboratory corner for checking food adulteration (lactometer, formalin Testing kit, weighing machine etc.), Green Space for socializing etc.,
- ❑ Office space for Bazar Bonik Samity, Workers Union, Market Management Committee, Woman business operators, etc.
- ❑ There could be some provision of developing a Housing Society centering the Growth Center – and that needs to be conceived now.
- ❑ If the GCM or nearby marketing facilities are by the river/canal side, than a proper 'Boat landing Platform' should be constructed for ease of the local community.
- ❑ The Growth Centers may have IT based training Centers, and other training facilities run by Social Welfare Division/Youth Development department.
- ❑ Improvement or capacity building of nearby Mosque/religious entity for the ease of the local community
- ❑ Dedicated hygienic slaughterhouse in the market area.
- ❑ Community Center where the local community could gather for social events like wedding etc.

- ❑ Solar Street Lights; small cold storages using solar panel for preservation of seeds etc.
- ❑ CCTV coverage of the Market, important establishments including transport parking areas.
- ❑ In this part of Bangladesh women are comfortable working at homestead and the society look down to women who work in the field. As such, participation of women in road construction project would be low.
- ❑ Afforestation to immediately follow chopping of trees along the highway. Chopping of trees would adversely affect the bird habitat.
- ❑ Many private clinics are located along the highway generating large amount of medical waste. These needs to be disposed of safely and needs to be integrated with the overall growth centre development.

27. During consultation with different stakeholders including land and different structure owners, squatters, CPR management and wage earners etc., LGED has registered all the concerns raised by the potential affected people. All the issues and responses are attached in Annex.

### 3.3 Incorporation of Consultations outcomes

28. The feedback received from the stakeholder consultation meetings have been considered in the RAP. The entitlement matrix has been revisited regarding compensations items and rates based on the consultation meetings. The suggestion provided on the design shared with the design team and has been incorporated as well. The Design team and safeguards consultants also shared the design with the local stakeholders and beneficiaries to get consent for effective planning and implementation.

Issues identified	Measures taken
Adequate compensation such as business loss, loss of structure, livelihood, loss of employment, tenants should be provided	<ul style="list-style-type: none"> <li>• Loss of income from displaced commercial premises-</li> <li>• One time Assistance BDT 2,500 and transitional allowance @ BDT 7,500</li> <li>• loss of regular wage income for 30 days @ BDT 8,000</li> <li>• Loss of income from rented -out commercial premises/</li> <li>• One time Assistance @ BDT 2,500 and transitional allowance @ BDT 7,500 three months rental cost.</li> <li>• Loss of income from access to rented-in commercial premises/</li> <li>• One time Assistance @ 2,500 and transitional allowance @ 7,500</li> <li>• three months rental cost. And Actual shifting assistance @ BDT 5,000</li> <li>• Income restoration grants for three months @ 5000</li> </ul>

Issues identified	Measures taken
	<ul style="list-style-type: none"> <li>• Special Assistance of a one-time payment @ 5,000 for vulnerable household as each female-headed, disabled-headed, elderly-headed and poor household.</li> <li>• Income restoration Training (Structure owners+ tenants+ wage labour)</li> <li>• Seed grant @BDT 15000/HH</li> </ul>
Labor Influx and GBV Risks Management	<p>The number of labour workers will be less than community/local resident. The risks of labor influx and GBV are therefore very low and managed with close supervision against laborers code of conduct. The PIU will instruct the civil works contractor to engage local labor as many as possible and build makeshift toilets and sanitation system in the construction area to ensure safe and healthy working environment. The contractor will be also asked to take safely measures during construction. The PIU will be supervising the contractor to ensure the influx of workers and followers cannot lead to adverse social and environmental impacts on local communities.</p>
Expansion of Growth Center Market (GCM) facilities, covering- construction of cold chain facilities, all weather shed for dumping agro products, vehicle parking area for wholesale buyer's trucks, gender segregated toilets, childcare/breastfeeding centers, Internet kiosks, medical center with a laboratory corner for checking food adulteration (lactometer, formalin Testing kit, weighing machine etc.), Green Space for socializing etc	Issues shared with design team to consider/include these feedbacks in the GCM design
Office space for Bazar Bonik Samity, Workers Union, Market Management Committee, Woman business operators, etc	Issues shared with design team to consider/include this feedback in the GCM design
GCM or nearby marketing facilities are by the river/canal side, than a proper 'Boat landing Platform' should be constructed for ease of the local community	Issues shared with design team to consider/include this feedback in the GCM design

## **4 Relocation and Livelihood Restoration**

### **4.1 Introduction**

30. For the Adjacent Road area, total 4.625-acre private land will be required for acquisition and no land acquisition will be required for upgrading of GCMs under CWs of this RAP. None of the affected shop owners and vendors need any permanent relocation during or after constructions of GCM. Indeed, the GCM activities will be carried out even during construction period in the available alternative location of the selected GCM.

31. Both title and Non titled PAPs are affected by the package CW-06. Due to this impact, 204 shops and 3 wage laborers will be affected. The shop owners and vendors will shift their business in consultation with market committee at the alternative location for the time being during construction period. To restore livelihood of the affected entities, LGED will provide compensations and different resettlement benefits including compensation for structure, transfer and reconstruction grant, loss of business, loss of wage laborer, loss of income from rented-out and rented in commercial premises, grants for vulnerable household, and seed grants for vulnerable HHs. No resettlement site at alternative places will require for the affected entities under these CWs.

### **4.2 Livelihood Impact and Risks**

32. The impact identified is only related to temporary economic displacement in GCM area. In this regard, the impacted squatters anticipated temporarily income loss due to loosing current business during construction period. According to the livelihood assessment, affected businessman want to continue their business in alternative places within the GCM for the time being during the construction period. The project has taken care of their suggestions and developed a livelihood and relocation strategy to minimize project impacts.

33. They want to enhance more skill on their current profession, and they requested skill development support along with other IGA including technical training (motor mechanical, mobile repairing), tailoring, beauty parlor training, agriculture, homestead farming, poultry, fisheries etc., for their family members. If proper planning for income and livelihood restoration is taken, owners will be able to utilize their money in income generating alternatives. These may help the affected people into conditions better than before the project began. Quick payment of compensation and other benefits as per policy and proper planning and guidance by the Environmental and social safeguard consultancy firm (SP-4) concerning the utilization of compensation money by the affected people will improve the chances for the restoration of livelihoods.

### **4.3 Income and Livelihood Restoration**

34. According to the survey, about 345 entities, including 225 structure owners, 56 tree owner, 61 tenants and 3 wage labour are going to be affected due to the project interventions for packages CW-06. All the displaced structure and business entities will be paid compensation following the RPF's Entitlement Matrix:

- Cash compensation under law (CCL) which includes 200% premium for acquisition of land.
- Replacement Value (RV) and dislocation Allowance as recommended by PAVC. to be decided prior to CCL compensation announcement.
- If RV is higher than CCL, the difference will be paid by LGED.
- If the remaining land is unusable, the compensation provided will be calculated based on the total land affected (i.e., the actual land lost plus the remaining unusable land).
- Transfer Grant at actual cost which will include labor cost and transportation cost.
- Reconstruction Grant in actual cost which will include land development, labor cost and transportation cost.
- LGED in collaboration with PIU, local government and RAC will make best efforts to identify alternative residential or commercial sites for the affected HHs.
- Owner will be allowed to take away all salvageable materials, trees and harvest crops and fish stock free of cost.
- Dismantling cost for non-shiftable structure will be determined by the PVAC and PIU based on the actual price and consultation with affected HHs.
- For CPR, Project will construct a new community property in consultation with community and / or managing committee. Community property cannot be demolished until new one is constructed.
- Fruit-bearing trees without timber: if the tree is at or near fruit-bearing stage, the estimated current market value of the fruit.
- Fruit-bearing trees with timber: RV for the timber and estimated current market value of fruit.
- Banana groves: RV of all trees and estimated current value of one-time crop of each full-grown tree.
- Replacement value of crops: if planted on GoB land by squatters and /or sharecroppers, 1-month advance notice to be issued in time to harvest standing crops. If not possible, the value of standing crops at full harvest value will be paid. RV of existing standing crops/fish stock.
- One-time Assistance for alternate rental based on the average rental rate/month within the project influence area determined by PVAC and transitional allowance @ three months' rental cost.
- Grant to cover temporary loss of regular wage income @ average wage/day in the locality for 30 days for wage labour or as determined by PVAC. Income and livelihood restoration assistance, to be created by the Project.
- Income restoration grants for three months based on the average monthly income loss Skill training and credit support under income generation program. Special Assistance of a one-time payment for vulnerable household as each female-headed, disabled-headed, elderly-headed, and poor household as decided by RAC and/or PIU. All the vendors and squatters will be eligible for Skill training and credit support under income generation program.

**Project Relocation Strategy:**

35. According to the results of IoL survey and livelihood assessment, no permanent relocation is required during the intervention of the package CW-06 as all the structure are affected partially. There are some pucca, semi pucca, tin made and katcha shops, and pucca and semi pucca business sheds (without wall) and open business place for the vendors within the project area. The project will plan for improvement activities of the GCM following the existing condition of the market so that the business operators experience minimum impact. The following relocation strategy will be adopted to minimize livelihood impacts.

- Affected business units will be relocated temporarily within the GCM area based on availability of GCM area and thereafter, the existing structures will be reconstructed/ improved. Indeed, the GCM activities will be carried out even during construction period in the available alternative location of GCM. The shop owners and vendors will shift their business in consultation with market committee at the alternative location during construction period. After reconstruction of the premises, fresh allocation based on consensus with the Market committee will be done and preferably in a cluster manner. After reconstruction of the premises, fresh allocation based on consensus with the Market committee will be done and preferably in a cluster manner. Therefore, very minimum impact on the affected business and livelihood might be occurred. For facilitating the vendors doing business under the common business sheds, construction activities will be stopped on the weekly “HAT” (Bazar) date.
- If any business operator opines to move elsewhere temporarily beyond the GCM, project will provide related assistance for their business relocation. The shop operators will have access to GCM after improvement of the sheds/marketplace.

**4.4 Income and Livelihood Restoration Strategies**

36. Mitigation of loss of assets and livelihood is the main focus of the RAP. LGED will provide appropriate support to the livelihood restoration aspects to cope with business relocation. Income and livelihood restoration strategy will focus on their post-relocation situation and adopt appropriate mitigation measures to uphold their standard of living. Short-term and long-term mitigation measures have been formulated in this RAP. Affected Business enterprises will get support and compensation for loss of business for three month @2500/per month being as short-term mitigation measures from the project in terms of relocation and income restoration. In addition, vulnerable EPs will receive special support and get preference for employment in civil construction works. It is expected that the short-term measures of compensating the loss of income will largely mitigate the livelihood impacts.

37. Eligible members of affected households will be linked with various financing institutions and NGOs to get financial support and training on income-generating activities (IGA) such as small business, mobile mechanics, driving, motor mechanics, poultry rearing,

cow fattening, tailoring, etc. as long-term mitigation measure.

38. The project has already provisioned special allowance for affected vulnerable and female-headed households. In addition, the LGED will initiate with the help of local administration to include all vulnerable PAPs to existing social safety net programs run by the government such as the Vulnerable Group Feeding (VGF) Program, Vulnerable Group Development (VGD) Program, Employment Generation Programs, etc. The local government institutions (LGI) like the Union Parishads (UP - a sub-district comprised of several UPs)/Municipality identify the vulnerable households and persons for VGF, VGD and other social safety net programs. LGED will request the elected LGI representatives (Chairmen/Mayors) to include the vulnerable PAPs in the ongoing government-sponsored safety net programs through the Upazila Nirbahi Officers (UNO - chief executives of sub-district administrations). LGED will prepare lists of vulnerable PAPs and provide those to the LGI representatives and liaise with the UNOs and LGI representatives to operationalize the mechanism.

39. According to the survey, the major income generating sources of the project area are small business, agriculture, livestock, and fisheries. The project will consider the present IGA sources and will prepare a mitigation plan following the needs assessment of the PAPs. Table below shows the present IGA sources of the project area.

40. For additional support to usual income restoration assistance as mentioned above, the Environmental and social safeguard consultancy firm (SP-4) will specifically assess the needs and skills base of the displaced PAPs of age between 15 to 45 years. The Environmental and social safeguard consultancy firm (SP-4) will prepare a list of suitable members of affected households eligible for income restoration intervention with their relevant profile and submit it to the PD for approval. LGED will decide about the ILRP program (Short term or long term) suitable for the vulnerable PAPs. The Environmental and social safeguard consultancy firm (SP-4) will again review during implementation period and will implement the plan accordingly. The short-term and long-term livelihood regeneration assistance under the RAP will be organized as mentioned in the table below.

**Table 17: Livelihood Restoration Options**

Short -Term ILRP	Eligible members of vulnerable households (Male or female headed) earning maximum BDT 10,500 per month and elderly/disabled headed HHs to be displaced from the project site.	Compensation for affected properties including resettlement benefits and allowance as vulnerable HHs (Male headed BDT 10,000 & female headed BDT 15,000), and priority in employment in construction. Training on IGA with seed grant @BDT 15000/trainee
Long Term ILRP	Eligible members of vulnerable households and elderly/ disabled headed HH earning maximum BDT 10,500 per	i. Compensation for affected properties including resettlement benefits and allowance as vulnerable HHs, and priority in employment in

	month to be displaced from the project site.	construction. ii. Training on IGA iii. Seed grant @BDT 15000/HH iv. Market linkage v. Linkage with NGO/Financing institutions vi. Regular monitoring of activities
--	--	---

41. Local people in the project area, whose livelihood will be affected by the project, will get preference in jobs associated with the project construction.

42. The project will mobilize available local resources to better or at least restore the livelihoods of the PAPs. The project will communicate with development partners and NGOs with ongoing activities in the project area and recommend them to include PAPs in their programs. The LGED will communicate with all development agencies active in the area to mobilize their resource and channel the development opportunities to all PAPs. One such initiative will be to pursuing active Microfinance Institutions (MFIs) in the area to set up a credit program specific to PAPs. In such a way, the project will explore the readily available opportunities provided by the government, NGOs or any other development partners and guide the PAPs on how to benefit from these organizations and agencies.

#### 4.5 Rehabilitation Measures

43. Necessary rehabilitation measures for the vulnerable PAPs are included in the entitlement matrices of the RAP. It is expected that the proposed rehabilitation measures for restoration of income and livelihood would help the affected people to uphold or at least restore their livelihood standard. FGD results show that PAPs preferred technical training including motor mechanical, mobile repairing, computer, beauty parlor, tailoring training, driving, and different skill development training along with employment opportunities, in construction work and assistance/loan from other ongoing development scheme, Assistance/loan arranged through this project etc.

##### Assistance to Vulnerable Groups

44. Vulnerable households including women headed household, elderly headed households and households below poverty line will be entitled to:

- Additional allowance for loss of land or other assets; and,
- Prioritized employment once civil work begins.

##### 4.5.1 Gender Considerations

45. Compensation for lost assets including land, structure, trees, crops, etc. will be paid to actual owners irrespective of gender considerations as per RPF policy and Bangladesh Labour law 2006 policy. Compensation will be paid in joint name with women as first holder. Clearly demarcated areas including separate toilets, shaded rest areas, private breastfeeding corners, etc. for the female workers will be provided in the construction sites. Equal salary for

the male and female would be ensured by LGED and the contractors during undertaking of the work. Male and female will be separately consulted in different groups to make them aware on their related rights and and in case of complaints, those will be resolved through GRC channels

## 5 Land Acquisition & Resettlement Budget

### 5.1 Introduction

46. Compensation and entitlements have been identified based on impacts and losses, as described above and in other sections of this document and they will be similar to those approved under development projects in Bangladesh. Following table represent compensation and entitlement matrixes for various categories of impacts so far assessed during the IoL survey. A person could be eligible for compensation/ entitlement in more than one category based on his awards determined by LGED. The LGED/implementing NGO will generate unique ID number of each EP for better implementation of the mitigation measures. A tentative budget has been prepared based on the rate collected from affected people and local influential people. This budget will be finalized by JVC and PVAC committee following RPF guideline.

### 5.2 Compensation Assessment Methodology

47. The ARIPA 2017 provides for the payment of compensation for affected assets permanently acquired, including standing crops, trees, and houses and any other damages caused by such acquisition. The value of the property is calculated by conducting Local Market Rate Assessment Survey. LGED will also assess the replacement value in consultation with the authentic source and local known persons. Table below shows the market rate of the affected structures and assets following the guideline of RPF of WeCARE. During the survey, the rate has been assessed from local stakeholders, relevant professionals, and impacted EPs as well. Previous project of LGED funded by WB as reviewed for analyzing of rate. The rate is used for preparation of a tentative budget and will be finalized assessed by JVC and following the rate proposed by PVAC. Table shows the rate and summary budget accordingly.

**Table 18: Rate for calculating the budget of RAP.**

Unit of Entitlement	Entitlements	Category of Loss	Rate (BDT)		Remarks
Impact category 1: Acquisition of land					
Legal owner(s) as identified by Deputy Commissioner (DC) in the process of CCL payment.	<ul style="list-style-type: none"><li>● Cash compensation under law (CCL) which includes 200 premium</li><li>● Replacement Value (RV) and dislocation Allowance as recommended by PAVC to be decided prior to CCL compensation announcement.</li><li>● If RV is higher than CCL, the difference will be paid by LGED.</li><li>● If the remaining land is unusable, the compensation provided will be calculated based on the total land affected (i.e., the actual land lost plus the remaining unusable land).</li></ul>	agricultural, homestead, commercial, water bodies (ponds)			Rate adopted from land office and market survey of each category of affected Land (avg. Rate by category)
Impact category 3&4: Loss of residential, commercial structures with and without title to land (squatters/vendors/encroachers)					
<ul style="list-style-type: none"><li>● Non-titled persons owners, vendors and encroachers those own residential and commercial structures (shiftable and non-shiftable built on GoB land as found during census</li></ul>	<ul style="list-style-type: none"><li>● Replacement value of the structure as determined by PVAC and PIU in consultation with affected HHs.</li><li>● Transfer Grant at actual cost which will include labor cost and transportation cost</li><li>● Reconstruction Grant in actual cost which will include land development, labor cost and transportation cost</li><li>● LGED in collaboration with PIU, local government and RAC will make best efforts to identify alternative residential or commercial sites for the affected HHs.</li><li>● Owner will be allowed to take away all salvageable materials free of cost.</li><li>● Dismantling cost for non-shiftable structure will be determined by the PVAC and PIU based on the actual price and consultation with affected HHs.</li></ul>	Type of impact	Non-title	Title	Rate adopted from market survey and PWD rate of each category of affected shop (avg. Rate by category)
		Pucca (sft)	1,000	2,039	
		Semi-pucca (sft)	800	1,078	
		Tin-made (sft)	400	837	
		Katcha (sft)	200	365	
		Thatched (sft)		122	
		Boundary Wall (10”) (rft)		800	
		Boundary Wall (5”) (rft)		800	
		Boundary Wall (Tin) (rft)		400	
		Donation Box (cft.)		150	
		Gate		200	
		RCC Pillar(no.)		800	
		Sanitary Toilet (no.)	60,000	60,000	

Unit of Entitlement	Entitlements	Category of Loss	Rate (BDT)		Remarks
		Septic Tank (Cft)		300	
		Varonda (sft)	250	250	
		· Transfer Grant (TG) @ Tk 40 per sft of floor area (maximum of Tk 10,000) · Reconstruction Grant (RG) @ Tk 60 per sft of floor area (maximum of Tk 5,000)	10,000		Market survey
Impact category 5: Loss of timber and fruit bearing trees, bamboo and banana groves					
<ul style="list-style-type: none"><li>● Legal owner(s) as identified by the DC in the process of CCL payment.</li><li>● Socially recognized owners of trees grown on public or other land, as identified by Census and verified by PVAC .</li></ul>	<ul style="list-style-type: none"><li>● Timber trees and bamboo: RV of trees and bamboo.</li><li>● Fruit-bearing trees without timber: if the tree is at or near fruit-bearing stage, the estimated current market value of the fruit.</li><li>● Fruit-bearing trees with timber: RV for the timber, and estimated current market value of fruit.</li><li>● Banana groves: RV of all trees and estimated current value of one-time crop of each full-grown tree.</li><li>● Owners will be allowed to fell trees and take the timber, free of cost after payment of CCL or RV as applicable.</li></ul>	Large	8,300		
		Medium	4,500		
		Small	1,800		
		Plant	60		
		Fruit-bearing trees: if the tree is at or near fruit-bearing stage, 30% of timber value for large and medium trees	30%		
Impact category 8: Loss of income from displaced commercial/ industrial premises (owner operated)					
Any proprietor or businessman operating in premises, at the time of issuance of Notice u/s 4 and/or during Census.	<ul style="list-style-type: none"><li>● One time Assistance for alternate rental based on the average rental rate/month within the project influence area determined by PVAC and transitional allowance @ three months rental cost.</li></ul>	Loss of income from displaced commercial premises- One time Assistance for alternate rental based on the average rental rate/month @ BDT 2,500 within the project influence area and transitional allowance @ BDT 7,500 for three months rental cost.	10,000		Rate adopted from market survey assessed during IOL survey
Impact category 9: Temporary loss of income (wage earners in agriculture, commerce & small business and industry) for title and non-title					

Unit of Entitlement	Entitlements	Category of Loss	Rate (BDT)	Remarks
<ul style="list-style-type: none"><li>● Regular wage earners affected by the acquisition.</li><li>● Also applicable for non-titled</li></ul>	<ul style="list-style-type: none"><li>● Grant to cover temporary loss of regular wage income @ average wage/day in the locality for 30 days for wage labour or as determined by PVAC</li><li>● Income and livelihood restoration assistance, to be created by the Project.</li></ul>	Temporary loss of income loss of regular wage income @ average wage/day in the locality for 30 days @ BDT 8,000	8,000	last six months ave. Rate assessed during IOL survey
Impact category 10: Loss of income from rented -out and access to rented-in residential/ commercial premises				
Owner of the rented-out premises as identified by Census and verified by PVAC. Household/person rented-in any such structure as identified by Census and verified by PVAC	One-time Assistance for alternate rental based on the average rental rate/month within the project influence area determined by PVAC and transitional allowance @ three months’ rental cost. Actual shifting assistance	Loss of income from rented -out commercial premises/ One time Assistance for alternate rental based on the average rental rate/month @ BDT 2,500 within the project influence area and transitional allowance @ BDT 7,500 three months rental cost.	10,000	Rate adopted from market survey assessed during IOL survey
		Loss of income from access to rented-in commercial premises/ One time Assistance for alternate rental based on the average rental rate/month @ 2,500 within the project influence area and transitional allowance @ 7,500 three months rental cost. Actual shifting assistance @ BDT 5,000	15,000	Rate adopted from market survey assessed during IOL survey
Impact category 12: Severally affected and Vulnerable HHs and livelihood assistance				
<ul style="list-style-type: none"><li>● Persons losing more than 10% of their income from all sources as identified by Census and verified by PVAC</li><li>● Squatters</li></ul>	<ul style="list-style-type: none"><li>● Income restoration grants for three months based on the average monthly income loss Skill training and credit support under income generation program.</li><li>● Special Assistance of a one-time payment for vulnerable household as each female-headed, disabled-headed, elderly-headed, and poor household as decided by RAC and/or PIU</li><li>● All the vendors and squatters will be eligible for Skill training and credit support under income generation program.</li></ul>	Income restoration grants for three months @ 5000 based on the average monthly income loss. (3*5000=15000)	15,000	last six months avg. Rate
		Special Assistance of a one-time payment @ 5,000 for vulnerable household as each female-headed, disabled-headed, elderly-headed, and poor household	5,000	Lumpsum
		Income restoration Training (Structure owners+ tenants+ wage labour)	2500	Lumpsum

Unit of Entitlement	Entitlements	Category of Loss	Rate (BDT)	Remarks
ILRP	Eligible members of vulnerable households and elderly/ disabled headed HH earning maximum BDT 10,500 per month to be displaced from the project site.	Seed grant @BDT 15000/HH	15000	Lumpsum

### 5.3 Cost & Budget

48. Both title and non-title HH will be affected during the intervention of CW-06. Several categories of impact identified during IoL survey.

#### 5.3.1 Budget for land

49. The package will require 4.625 acre of private land for upgrading adjacent road network. It will take total BDT 71,204,084.25 for private land. Out of total private land budget, BDT 53,409,727.20 will be paid through DC and BDT 17,794,357.05 will be paid by LGED. affected government lands are subject to departmental transfer. No budget estimated for government land. Details of the land acquisition budget is mentioned in separate two tables below.

**Table 19: Budget for private land**

## 6 Institutional and Implementation Arrangements

### 6.1 Institutional Arrangement

55. **Formation and Responsibility of PIU:** PIU will consist of PD, DPD, XEN, and Sr. Assistant Engineers. PIU will be actively supported by the individual consultant and assistant engineers. PD will be the main responsible person to implement the LGED program. The PIU will ensure that implementation follows both Government and Bank rules and regulations. The PIU will be also responsible for: (i) supervising and reviewing preparation, implementation and providing necessary advice for timely delivery; (ii) monitoring and evaluating implementation progress and suggesting necessary course corrections. (iii) Resolving issues and conflicts that may emerge during implementation; (iv) facilitation coordination and convergence with other line ministries, division, and departments/agencies; and (v) keeping the PSC apprised on overall performance and key issues relating to the project.

56. **Formation and responsibility of PIC at field level:** There will be a project implementation committee (PIC) at field level. The PIU will be actively assisted by PIC. PIC will consist of LGED Local Executive Engineer (XEN), relevant Upazila Engineers (UE) and District Sociologist. PIC will be actively assisted by Consulting Firm. PIC will keep a very close coordination with PIU. As first Phase of the program will be implemented into Jhenaidah and Magura. PIC will be formed based on the implementation area. The XENs will call on the services of District Sociologist posted in each district. The XENs will be directly assisted by the Upazila Engineers (UE – one in each upazila) who will, in turn, be assisted by consulting firms. The Consultant will also assist and support PIU, when required.

LGED will conduct regular monitoring and evaluation of the updating and implementation of the resettlement plan. Monitoring and evaluation are intended to help ensure that the resettlement action plan is prepared and implemented according to the resettlement policy framework. Moreover, external monitor of the project will review all the RAP/s prepared for this project. External monitor will establish dialogue with the affected communities and ensure that their concerns and suggestions are incorporated and implemented in the project. External monitor will work closely with the PIU and internal monitoring team to implement the Resettlement Action Plan (RAP) and specifically responsible for implementation of proposed compensation, rehabilitation, and income restoration measures, consultations with affected persons (APs) during rehabilitation activities and assisting in grievance redress. He or she will prepare resettlement training programs and workshops for the staff of the PIU and contractors; The following key indicators will be monitored periodically by PIUs.

### 6.2 Project Management and Supervision Consultant

57. The overall responsibility of environmental and social performance of RAP implementation of the WeCARE will rest with the PIU. Aside from the PIU safeguard specialist and RAP implementing NGO/consulting firm, the PIU will engage Project Management and supervision Consultant (PMS) to supervise the contractors including social safeguard

management requirements and measures on their execution of construction-related, infrastructural development and other activities that have significant negative social impacts identified in the RAP. The PMSC will ensure adherence to the monitoring parameters including quality requirements, as well as all social safeguard measures.

### 6.3 Capacity Building

58. During implementation of the program, LGED, consulting firms, contractors and relevant officials will be **trained** on ESF as part of the capacity development under component 4 of this program. Environmental and social safeguards training will help ensure that the requirements of the RPF and subsequent social safeguard are clearly understood and followed by all project personnel throughout the project period.

### 6.4 RAP Implementation Time Schedule

59. The land acquisition activities will be done by DC office following acquisition and requisition of immovable property act 2017 (ARIPA). LGED will also assist the DC office in land acquisition works as sought by DC office. Following the ARIPA, the minimum time required for acquisition of lands is about 9-12 months. The land acquisition is only required for road works. So for the road works, the procurement plan should follow the time requirement for private land acquisition and the plan should ensure after payment of compensation as per law the physical works started. In case of GCM works, no land acquisition will be required, so it is estimated that maximum 6 months will be required for payment of compensation. After payment of compensation, the physical works should be started. Upon approval by WB and Ministry of Local Government Division the RAP will be implemented. The activities are presented in the implementation schedule. A sample Implementation Schedule has been included.

**Table 27: RAP Implementation Time Schedule**

		1	2	3	4	5	6	7	8	9	10	11	12
1	<b>Implantation of RAP (Non titled EPS)</b>												
	Replacement Cost/Rate finalization by PAVC Committee												
	Update of finalization of RAP budget												
	Creation of Inventory of Losses (IOL) database												
	Collection and Preparation of supporting documents (NID, TAX, etc)												
	Preparation of EP File												
	Preparation Entitlement Card												

		1	2	3	4	5	6	7	8	9	10	11	12

	Reconnaissance visits by DC												
	Approval of DLAC by Divisional Commissioner												
	Assist DC in Updating of CHA Form												
	Assist in serving notice u/s 4 and Joint Verification												
	Assist in JVs												
	Approval by ministry JV LAP												
	Assist in serving notice u/s 7												
	Assist in preparation of LA estimate and award book												
	Fund requisition by DC												
	Assist in serving notice under section 8 by DCs												
	Assist PAPs in updating record of rights and receiving compensation												
	Assist DC office during transfer of Land												
3	<b>Implementation of RAP (Titled EPs)</b>												
	Collection of CCL from PAPs after getting compensation												
	Prepare CCL statement as per DC payment												
	Preparation and distribution of EP file and EC												
	Payment of additional compensation and other benefits												
4	<b>Impact Evaluation</b>												

## 6.5 Committee Formed to Deal with RAP Implementation

60. GRC, JVC, PVAC, and RAC committee have been formed on April 24, 2022 to compensate the affected persons/families for the land acquisition, structure, tree, business, and other impact during the Western Economic Corridor & Regional Enhancement Program (WeCARE) Phase-1: LGED project implemented by LGED with the financial assistance of the World Bank. Committees will take effective measures solving complaint from affected persons within a short period of time and maintaining transparency.

### 6.5.1 Grievance Redress Committee.

61. Grievance Redress process will be implemented in four stages: primary level at the Upazila stage, the second at the district level, and the third at the project management stage and) the fourth at the ministry of LGED stage.

#### 62. Primary Stage (Upazila Grievance Redress Committee)

a) Upazila Engineer, LGED, Related UP.	Convener
b) Chairman/Member/ Councilor, related UP/ Municipal	Member
c) Female member/ councilor, related UP/ Municipal	Member
d) Representative affected person/beneficiary person of the project area.	Member
e) Community organizer, LGED, related Upazila.	Member secretary.

#### Scope of Work:

- Accepting the complaint of affected person and resolving it based on mutual discussion.
- Inform the affected person regarding land and/or structure acquisition, the impact of livelihood, proper compensation and also related other cooperation.
- File a complaint within one month to the convener of the grievance Redress committee after getting informed about compensation or getting an identity card.
- If the grievance is covered by the process of land acquisition law or existing law, in that case committee will suggest applying to the DC/legal authority.
- That related person should be called to the dispute resolution meeting and will have to be allowed to raise his grievance.
- If the grievance of affected person is covered by the resettlement policy, then assist to get the compensation from the project authority.
- Provide the decision within fifteen days after getting the grievance of affected person.
- Wright down all information related to the grievance of the victim.
- Inform the affected person regarding the progress of his grievance and the decision of the committee.
- Preserving Records and Informing the project director regarding all the meeting minutes related to the dispute resolution.

## Annex 7: SOCIO-ECONOMIC PROFILE

### SOCIO-ECONOMIC PROFILE

#### Introduction

This section deals with the general baseline socio-economic profile of the project area and affected households. Socio-economic details of the affected households were collected during the social studies. In addition to the specific social information collected during the census survey, general socio-economic information was also collected through individual household-level surveys among the affected entities in the project footprint to prepare an overall socio-economic profile of the affected households and people.

#### Socio-Economic Profile of the Affected Households

The Socioeconomic profile deals with various socio-economic details of the surveyed households (281 HHs covering 826 people) based on the finding of the survey. Demographic and socioeconomic information along with potential impacts on the people and community were collected from the affected people during the survey.

#### Demographic Characteristics in Project Affected Area

The census and inventory of losses survey identified 581 households with a total population are 826. The average HH size is 2.94 which is much lower than the national average HH size of 4.06 in 2016. Among the affected households 6.41% are headed by females and 93.59% are headed by males that significantly varies with the statistical data of the World Bank 2018 (84.20% Male headed and 15.80% female headed HHs). A detail of the demography is shown in the table below.

**Table 32: Demography of the project affected households and people**

Interventions	Location	HH	Male HH	Female HH	Male No		Female No		Total Population		HH Size
					No	%	No	%	No.	%	
GCM (On Government land)	Khamarpara	55	54	1	82	18.30	80	21.16	162	19.61	2.95
	Langolbandh	28	28	0	28	6.25	0		28	3.39	1
Road (On Private land)	Jenaidah	5	4	1	8	1.79	7	1.85	15	1.82	3.00

		281	263	18	448	54.24	378	45.76	826	100	2.94

*Census and IOL survey, November to December 2022*

#### Age and Sex Composition

The census and inventory of losses survey show that among the affected people about 54.24% are male and 45.76% are female. Off the total family member, 19% are aged below 15 years old. It was identified during the IoL survey that, percentage of female family member are reducing over the time. It was found in age group below 5 that 40.63% of family member are male and 59.38% are female. Which is 64.79% male and 35.21% female in the age group more than 60. It may represent the lower life expectancy for female in project area.

**Table 33: Affected people by age and sex**

Age	GCM (on Govt land) Non titled HHs				Road (on private land) -Titled HHs				Total		Total

*Census and IOL survey, November to December 2022*

### Marital Status

Considering marital status among the affected population, 296 males and 229 females are married. Of the total married, there is no one found below the age 15 years, meaning child marriage does not exist in the project area. It is seen 3 male and 21 women are widowed.

**Table 34: Marital status of affected family member by gender**

Age Group		Married		Unmarried		Widow/Widower		Total		Total
		Male	Female	Male	Female	Male	Female	Male	Female	
GCM (On Government land)	Khamarpura	56	51	26	27	0	2	82	80	162

		296	229	149	128	3	21	448	378	826

*Source: Census and IOL survey, June to July 2022*

### Household by Religion

Among the affected people, the Muslim populations are about 88.61% whereas the Hindu population is 11.39%. Other religious people are not affected by the project interventions. The following figure shows the distribution of households by religion.

**Table 35: Household by Religion**

Religion	GCM (on Govt land) Non titled HHs		Road (on private land)- Titled HHs		Total	%
	Khamarpara	Langolbandh	Jenaidah	Magura		
Islam	48	27	3	171	249	88.61
Hindu	7	1	2	22	32	11.39
Total	55	28	5	193	281	100

*Census and IOL survey, November to December 2022*

### Education

The literacy rate in the project area is about 86.44% which is much higher than the national literacy rate (74.68 in the year 2019) of Bangladesh. Among the affected people, the male is found more educated

than the female. Up to Class IX-X, the female students were found more than male students. This is due to government financial support for female students. Since 1980s secondary school enrolments of girls jumped from 39 in 1998 to 67 in 2017. After Higher Secondary Certificate (HSC), female students become significantly low. This is due to marriage and social custom.

**Table 36: Education level of the PAPs**

Education Level	GCM (On Government land)				Road (On Private land)				Total	
	Khamarpara		Langolbandh		Jenaidah		Magura			
	Male	Female	Male	Female	Male	Female	Male	Female	No	%

*Census and IOL survey, November to December 2022*

### Income and Poverty of HHs

It is known that the project affected area divided into two-part, Growth Center and adjacent road network. GCM area is full of small business units/shops run by poor people for their livelihood on government land and adjacent road area contain both residential and commercial structure on the side of the road. As this is rural area, most of the HHs are small or medium scale and a very few are large scale income source. The income level of the small businessmen is quite low. According to the income level of the affected households (281), a total of 80 vulnerable people has been identified during the survey, among them, 68 HHs have been identified as income under the poverty line (BDT 10,500/month).

Households living below the poverty line<sup>1</sup> and disabled headed are called vulnerable and they will be entitled to additional grants on top of other compensation. They will also be provided skill development training (one from each vulnerable HHs) under the RAP policy on income-generating activities with a seed grant, market linkage, and linkage with financing institutions under the income and livelihood restoration program (ILRP). Apart from these, vulnerable people will get preferential employment opportunities in the civil construction of the project according to their eligibility. The table underneath

<sup>1</sup> According to the Household Income and Expenditure Survey (HIES) 2016 of the Bangladesh Bureau of Statistics (BBS) income poverty of the poor in Khulna Division is BDT 8550 (2106/per person) for HH size of 4.06. Acknowledging the average HH size of the project area (3.98) BDT 8340 for 2016. BDT 10697 (say 10500) has been adopted as the 2022 poverty line for the project acknowledging inflation rate of 5% per year.

### Occupation Pattern

As per the socio-economic survey, 38% of total affected person are engaged with income generating activities. Of the total income generating activities, businesses appear to be the main occupation (27.70%). Among the male population, most of the eligible and capable members (67.54%) are involved in income-generating activities which is 1.09% for women. Females are mostly housewives (63.04) and are also involved in allied activities focusing on maintaining household chores. About 23.67% people are found, students. Around 2.25% are found to be totally unemployed although they are educated and willing to work. Around 3.06% of people are retired and old, but they are the heads of the HHs. Income and livelihood restoration programs can enhance the capacity of the people particularly female and vulnerable people for doing more income-generating activities.

**Table 38: Principal occupation of the affected population in percentage**

### Dependency

Among the affected people, only 38.74% are earning members, and the remaining 61.25% are dependent members of the HHs. Taking into consideration the total affected population, one wage earner must support 1.6 dependents. The survey identified only a few women are engaged in the income-earning groups. Resulting, they are to some extent dependent on males.

**Table 39: Income-earning and dependent member in the affected HHs**

Poverty and Gender Dynamics

### Overview

The census & socioeconomic survey revealed that few women are engaged in income-generating activities including some allied activities in the household. Housewife is the main occupation in the case of married capable women. The adult female members (unmarried) also take part in the household chores. Since then, it was found during the survey that male household members remain reluctant to have adult female household members engage in outside work and services. However vulnerable poor women are already doing work outside the home either as laborers or small shopkeepers/vendors.

Sexual exploitation and abuse (SEA) and sexual harassment (SH) related risks were also raised by the

stakeholders during the consultation meetings and the participants discussed about potential risks and mitigation measures of SEA-SH. The consultants disclosed that GRM at each level will be available to receive, record, and investigate all SEA-SH-related complaints. After the case is investigated and disciplinary action is taken, the case may be handed over to a service provider. The RAP implementing agency will assist the Project Director in identifying service provider organizations in the project area. The GRM will document whether the complaint is project-induced or not. If the complaint is related to the project, the GRM will track the complaint and keep updates through monthly progress reports. If not, the GRM will not track the complaint.

During construction, LGED will ensure that contractors will try to engage local workers as much as possible to avoid labor influx. During labor recruitment, poor women need to be encouraged to work and equal pay for similar work must be ensured. At consultations, people expressed concerns over the influx of migrant workers for the project's construction work and their possible engagement in illicit sexual relationships with women and children. They thought that such instances can cause the spread of sexually transmitted diseases. Addressing this concern, both LGED and the contractors will ensure that awareness-raising programs on GBV and sexually transmitted diseases are conducted for all local and migrant workers as well as local communities prior to the commencement of civil works. Furthermore, it will be also a mandatory requirement on the part of contractors to enforce a strict code of conduct for their labor teams. To ensure all these, the contractor's bid documents will ensure the inclusion of the above-mentioned items.

### Vulnerable Groups

Vulnerable households have been defined as (i) headed by a single woman or woman with dependents and low incomes; (ii) headed by elderly/disabled people without means of support; (iii) households that are below the latest nationally defined poverty line; (iv) households of the indigenous population or ethnic minority; and (v) households of low social group or caste. During the elaboration of the RAP no indigenous population, ethnic minority, or affected person of low social group or caste were identified. Among the total affected population, 80 is found as vulnerable. Of the total vulnerable people, 68 is living under the poverty line, 2 people with disabilities and 10 female headed household.

**Table 40: Type of Vulnerable Household**

### Existing Utilities /Civic Facilities

It is known that the project is in rural areas in the western and southern regions of the country. There is only an electricity supply facility available in the affected growth centers. Residential and commercial entities, CPRs, and offices /institutions have such utilities/civic facilities in the project area. Such facilities may be disconnected temporarily due to the project and will be further connected by the PAPs.

### Source of Drinking Water

The survey revealed that 83.63% affected households collect drinking water from hand tube wells and other 16.37% use water from Shallow Tube Well. There is no water supply connection to household and commercial structures so no compensation should be paid for the reconnection/ reinstallation charge. LGED will further verify the existing alternative facilities once again before the finalization of the indent.

**Table 41: Sources of drinking water at household level**

#### Type of Toilet

Hygienic sanitation in Bangladesh particularly in urban/semiurban settings is well-practiced. The survey revealed that more than 100% of the affected HHs in GCM area and 80.30% in Road area use sanitary toilets while 19.70% use katcha toilets in road area.

#### Source of Cooking

It is revealed that about 8.90% of affected HHs use Gas (cylinder) in their house for cooking and about 88.97% use firewood and 2.14% use the electric cooker for cooking. It is to be noted here that there is no pipe supply gas connection, so no one will be entitled to a Gas reconnection charge from the project.

#### Source of Light

The project locations are in rural settings where 100 of the affected people enjoy electricity. It is to be noted that all the affected CPRs/Offices/Institutions have electricity supply to their premises. Displaced entities including residential, commercial, and CPRs have electric supply in their premises within the

project footprint.

## Annex 8: Entitlement Matrix

### ENTITLEMENTS, ASSISTANCE AND BENEFITS

#### Introduction

The involuntary taking of land results in relocation or loss of shelter; and loss of assets or access to assets or loss of income sources or means of livelihood, whether or not the PAPs must move to another location. Meaningful consultations with the affected persons, local authorities and community leaders will therefore allow for establishment of criteria by which displaced persons will be deemed eligible for compensation and other resettlement assistance. Affected persons will be classified as:

- i. Persons who have formal legal rights to land or assets
- ii. Persons who do not have formal legal rights to land or assets, but have a claim to land or assets that is recognized or recognizable under national law; or
- iii. Persons who have no recognizable legal right or claim to the land or assets they occupy or use.

Those covered under (a) and (b) above are to be provided compensation for the land they lose, and other assistance in accordance with this RAP. Persons covered under (c) above are to be provided with resettlement assistance in lieu of compensation for the land they occupy, and other assistance, as necessary, to achieve the objectives set out in this RAP, if they occupy the project area prior to a cut-off date established by the project authorities in close consultation with the potential PAPs, local community leaders and the respective local authorities and acceptable to the World Bank.

Persons who encroach on the area after the cut-off date are not entitled to compensation or any other form of resettlement assistance. All persons included in (a), (b) or (c) above are to be provided with compensation for loss of assets other than land. It is therefore clear that all project affected persons irrespective of their status or whether they have formal titles, legal rights or not, squatters or otherwise encroaching illegally on land, are eligible for assistance if they occupied the land or had use of it, before the entitlement cut-off date.

#### Methods to Determine Cut-Off Date

Cut-off date is the date after which eligibility for compensation or resettlement assistance will not be considered. It will be established to identify the non-land assets that will qualify for compensation and discourage abuse of the mitigation policies by defrauding the project. Date of service of notice under Section 4 of Land Acquisition and Requisition of Property Act (ARIPA 2017) is considered as legal cut-off dates for the landowners. The 1st day of the census survey to be the cut-off date for the squatters and encroachers and recognized as social cut off dates.

#### Eligibility Criteria

The RAP stipulates eligibility and provisions for compensating all types of losses (land, crops/trees, structures, business/employment, and workdays/wages). All PAPs including non-titled or informal dwellers will be compensated for lost assets (crops, structures, trees and/or business losses) and will receive (i) compensation (as required, to match replacement value), and/or (ii) replacement land, structures, seedlings, other resettlement assistance such as

shifting allowance, assistance with rebuilding structures, compensation for loss of workdays/income.

The PAPs who are entitled to compensation under the Project include:

- Persons whose structures are in part, or in total, affected temporarily or permanently by the Project.
- Persons whose residential or commercial premises and/or agricultural land (or other productive land) is in part, or in total, affected (permanently or temporarily) by the Project.
- Persons whose businesses are affected in part, or in total, (temporarily or permanently) by the Project.
- Persons whose employment or hired labor or share-cropping agreement is affected, temporarily or permanently, by the Project.
- Persons whose crops (annual and perennial) and/or trees are affected in part, or in total, by the Project.
- Persons whose access to community resources or property is affected in part, or in total, by the Project.

Impacts of the package have been identified following the above criteria. The result shows that, there is both title and non titled household will be affected by this Package CW-06. Total of entitles affected at this package by losing of structures out of which 83 squatters, 142 title holder and 9 CPR. Due to the impact on the structures, 204 shops will require to be dismantled and accordingly 204 business operators will be affected by losing their business. Moreover, The Inventory of Loses (IOL) survey also identified that 3 wage labor and 61 tenants will be affected in the affected shops by the project intervention. Total 58 of affected people is identified as vulnerable considering their income level. Of the total affected HHs, 621 PAPs have been identified and will be affected by the project intervention but none of them will be physically displaced since their residential premises are not affected.

Compensation eligibility will be limited by a cut-off date to be set for each subproject and PAPs who settle in the affected areas after the cut-off date will not be eligible for compensation. They, however, will be given sufficient advance notice, requested to vacate premises and dismantle affected structures prior to project implementation. Their dismantled structures will not be confiscated, and they will not pay any fine or sanction. Forced eviction will only be considered after all other efforts are exhausted.

# Entitlements Matrix: Eligible PAPs, Assets and Compensation Guidelines

**Table 45: Eligibility and Entitlement Matrix**

Unit of Entitlement	Entitlements	Application Guidelines	Implementation Issues
Impact category 1: Acquisition of agricultural, homestead, commercial, water bodies (ponds) land			
Legal owner(s) as identified by Deputy Commissioner (DC) in the process of CCL payment.	<ul style="list-style-type: none"> <li>• Cash compensation under law (CCL) which includes 200 premium</li> <li>• Replacement Value (RV) and dislocation Allowance as recommended by PAVC.</li> <li>• If RV is higher than CCL, the difference will be paid by LGED.</li> <li>• If the remaining land is unusable, the compensation provided will be calculated based on the total land affected (i.e., the actual land lost plus the remaining unusable land).</li> </ul>	<ul style="list-style-type: none"> <li>• Land on the Project right of way to be acquired by DC.</li> <li>• Top up for RV will be recommended by PVAC</li> <li>• DC will pay CCL for land</li> <li>• If RV is higher than CCL the difference amount will be paid by LGED</li> </ul>	<ul style="list-style-type: none"> <li>• Persons entitled will be informed of the details about the land acquisition and compensation process, resettlement package and payment procedure.</li> <li>• PVAC will recommend RV for land based on current market price (CMP)</li> <li>• DC will determine the market price of land average last 12 months sale price (from the date of service of notice under section 4. 		7500 three months rental cost. " "Loss of income from access to rented-in commercial premises/ • One time Assistance for alternate rental based on the average rental rate/month @ 2500 • within the project influence area and transitional allowance @ 7500 • three months rental cost. Actual shifting assistance @ BDT 5000"	
Impact category 11: Adverse impact on host population due to relocation of PAPs			
Households relocated to the host villages	Enhancement of carrying capacity of common civic amenities/utilities of the host communities as per assessment by LGED.	•CONSULTING FIRM will assess the impact of the host community	•LGED will provide required support to the host community.
Impact category 12: Severally affected and Vulnerable HHs and livelihood assistance			
• Persons losing more than 10 of their income from all sources as identified by Census and verified by PVAC • Squatters	• Income restoration grants for three months based on the average monthly income loss Skill training and credit support under income generation program. • Special Assistance of a one-time payment for vulnerable household as each female-headed, disabled-headed, elderly-headed and poor household as decided by RAC and/or PIU • All the vendors and squatters will be eligible for Skill training and	• The EPs will be identified as per census • Income and livelihood support will be provided by the LGED.	• Vulnerable households losing income from employment for the transitional time up to permanent settlement will be assessed during census • These persons will be covered under the skill training program and the allowance will be paid upon performance.

Unit of Entitlement	Entitlements	Application Guidelines	Implementation Issues
	credit support under income generation program.		
Impact category 13: Unforeseen adverse impacts			
Households/persons affected by any unforeseen impact identified during RAP implementation	Entitlements will be determined as per the resettlement policy framework	<ul style="list-style-type: none"> <li>• The unforeseen impacts will be identified through survey by LGED as per request from the impacted population</li> <li>• The entitlements will be approved by the Ministry of Local Government, Rural Development and Cooperatives.</li> </ul>	<ul style="list-style-type: none"> <li>• The unforeseen impacts will be identified with due care as per policy framework and proposed to the Ministry of Local Government, Rural Development and Cooperatives for approval including quantity of losses, their owners and the entitlement.</li> </ul>
Impact Category 14: Construction induced impact			
Title and non-title land structure, tree and /or any type of assets owners	<ul style="list-style-type: none"> <li>• RV of damaged land, structure, tree, crops/fish stock and /or any type of assets owners as determined by PVAC and affected land / asset owners</li> <li>• Owner will be allowed to take away all salvageable materials free of cost.</li> </ul>	<ul style="list-style-type: none"> <li>• The Contractor will bear the cost of any impact on structure or land due to movement of machinery and in connection with collection and transportation of burrow materials.</li> <li>• All temporary use of lands outside proposed project area will be through written agreement of the landowner and the contractor</li> </ul>	<ul style="list-style-type: none"> <li>• Compensation and other assistance to be paid before relocation.</li> <li>• Female headed households will get special assistance.</li> <li>• The Labourers in the camp would be trained about safety, STDS, HIV/AIDS, safe sex etc. The contractor shall ensure first aid box and other safety measures regarding such diseases.</li> </ul>

### Compensation Payment

In cases of acquisitions, a part of the compensation for lands and other affected assets built or grown there on will be assessed and paid to the title holding PAPs by the DC, the head of the Acquiring Body. If this payment Compensation Under Law-, (CUL), is found to be lower than the replacement costs of land/structure and market prices of trees/perennials, LGED will directly pay the difference as 'Top-up' to make up for the shortfall.

With and without acquisition, compensation/assistance to all other PAPs who are not covered by the Land Acquisition Act, (ARIPA 2017) but qualify according to this RAP, will also be directly paid by LGED.

Where an owner loses lands and other assets in more than one mauza or land administration unit, the person will be counted once, and his/her top-up will be paid as a single amount. The amount of top-up due to the affected person will be determined by comparing the total amount of CUL paid by the DCs for lands and other assets acquired in all mauzas with the total replacement costs and/or market prices thereof.

Where DC's CUL payment is not made together for all lands and other assets acquired from an owner due to legal disputes or other reasons, LGED will determine the top-up for the acquisitions as a whole but pay on the lands and other assets for which CUL has been paid. Top-up for the rest will be paid whenever the CUL payment is made after resolution of the disputes.

Compensations/entitlements due to the PAPs, including those who are not covered by the ARIPA 2017, but eligible according to this RAP, will be paid in full compensation before they are evicted from the acquired private and public lands.

The LGED will ensure that the properties to be acquired or displaced for the project will be compensated at their full replacement cost determined by the PAVC following the guideline of the RAP.

As part of the Detailed Measurement Survey of each project affected entity (an individual, household or community) completed by the DC or IA on behalf of the LGED, the entitlement matrix (EM) will then be used to offer compensation options to each project affected entity.

## Annex 9: Legal Framework

### Legal and Policy Framework

#### Land Acquisition policy of Bangladesh Government

The Acquisition and Requisition of Immovable Property Act 2017 (ARIPA 2017) is the principal legislation governing eminent domain for land acquisition and requisition in Bangladesh. ARIPA 2017 detailed the land acquisition process from section 4 to section 19 and land requisition process from section 20 to section 28. According to ARIPA 2017, compensation to be paid for affected land, structures, trees, crops and any other damages caused by such acquisition. Under the ARIPA 2017, The Deputy Commissioner (DC) determines the value of the acquired assets as at the date of issuing the notice of acquisition under section 4(1). The DCs there after enhancing the assessed value by 200 as premium for land and 100 for loss of standing crops, structures and trees due to compulsory nature of the acquisition. The compensation such determined is called the Cash Compensation under Law (CCL). If the land acquired has standing crops cultivated by a tenant (Bargadar) under a legally constituted written agreement, the law requires that compensation money be paid in cash to the tenants as per the agreement. ARIPA 2017 under section 4 (13) permits the acquisition of the community properties if it is for a public purpose provided that project for which the land is acquired provides for similar types of assets in some other appropriate place or reconstruct the community properties.

Households and assets moved from land already acquired in the past for project purposes and/or government khas land are not included in the acquisition proposal and therefore excluded for considerations for compensation under the law. Lands acquired for a particular public purpose cannot be used for any other purpose. Furthermore, the Act under its section 15 provides for the acquisition of entire houses/buildings if their owners request to acquire the entire house or building against partial acquisition. The government is obliged to pay compensation for the assets acquired.

**Table 46: Land Acquisition Process under ARIPA, 2017**

Relevant Section	Steps in the process Responsibility under ARIPA, 2017	
<b>Section 4(1)</b>	Publication of preliminary notice of acquisition of property for a public purpose	Deputy Commissioner
<b>Section 4 (3) (1) (i)</b>	Prior to the publication of section 4(1) notice. Identify the present status of the land, structures and trees through videography, still pictures or appropriate technology.	Deputy Commissioner
<b>Section 4 (3) (1) (ii)</b>	After the publication of the section 4(1) notice, a joint verification should be conducted with potentially affected households and relevant organizations.	Deputy Commissioner

<b>Relevant Section</b>	<b>Steps in the process Responsibility under ARIPA, 2017</b>	
<b>Section 4 (7)</b>	After publication of preliminary notice under the section 4(1), if any household has changed the status of the land for beneficial purposes, changed status will not be added to the joint verification notice.	Deputy Commissioner
<b>Section 4 (8)</b>	If the affected person is not happy with the joint verification assessment, he/she can complain to Deputy Commissioner within 7 days of issuing sec 4(1) notice.	Affected Person
<b>Section 4 (9)</b>	Hearing by Deputy Commissioner within 15 working days after receiving the complaints. In case of government priority projects, hearing will be within 10 working days.	Deputy Commissioner
<b>Section 5 (1)</b>	Objections to acquisition by interested parties, within 15 days of the issue of section 4 (1) Notice	Affected Person
<b>Section 5 (2)</b>	Deputy Commissioner submits hearing report within 30 working days after the date of the sec 5(1) notice. In the case of government priority projects, it will be within 15 working days.	Deputy Commissioner
<b>Section 5 (3)</b>	DC submits his report to the (i) Government (for properties that exceed 16.50 acres; (ii) Divisional Commissioner for properties that do not exceed 50 standard bighas. Deputy Commissioner makes the final decision If no objections were raised within 30 days of inquiry. In case of government priority project, it will be 15 days	Deputy Commissioner
<b>Section 6 (1) (1)</b>	Government makes the final decision on acquisition within 60 workingdays after receiving report from the Deputy Commissioner under sec 5(3) notice.	Government
<b>Section 6 (1) (2)</b>	Divisional Commissioner makes the decision within 15 days or with reasons within 30 days since the submission of the report by Deputy Commissioner under sec 5(3) notice.	Divisional Commissioner
<b>Section 7 (1)</b>	Publication of the Notice of final decision to acquire the property and notifying the interested parties to submit their claims for compensation	Deputy Commissioner
<b>Section 7 (2)</b>	Interested parties submit their interests in the property and claims for compensation within 15 working days (in case of priority project 7 days).	Affected Person
<b>Section 7 (3)</b>	Individual notices have to be served to all interested persons including the shareholders within 15 days of issuing Section 7(1) notice	Deputy Commissioner
<b>Section 8 (1)</b>	Deputy Commissioner makes a valuation of the property to be acquired as at the date of issuing	Deputy Commissioner

<b>Relevant Section</b>	<b>Steps in the process Responsibility under ARIPA, 2017</b>	
	Section 4 Notice; determine the compensation; and apportionment of compensation among parties interested.	
<b>Section 8 (3)</b>	DC informs the award of compensation to the interested parties and sends the estimate of compensation to the requiring agency/person within 7 days of making the compensation decision	Deputy Commissioner
<b>Section 8 (4)</b>	The requiring agency/person deposits the estimated award of compensation with the Deputy Commissioner within 120 days of receiving the estimate.	Deputy Commissioner
<b>Section 9 (1)</b>	During valuation of assets, Deputy Commissioner will consider the following: (i) Average market price of land of the same category in the last 12 months; (ii) Impact on existing crops and trees; (iii) Impact on other remaining adjacent properties; (iv) Impact on properties and income; and (v) Relocation cost for businesses, residential dwellings etc.	Deputy Commissioner
<b>Section 9 (2)</b>	Additional 200 compensations on current mouza rate is added to the estimated value. If private organizations acquire, added compensation will be 300.	Deputy Commissioner
<b>Section 9 (3)</b>	Additional 100 compensations on top of the current market price for impacts mentioned under sec 9(1) and (2)	Deputy Commissioner
<b>Section 9 (4)</b>	Appropriate action should be taken for relocation on top of the above-mentioned sub-sections.	
<b>Section 10 (2)</b>	If an entitled person does not consent to receive compensation, or if there is no competent person to receive compensation, or in the case of any dispute with the title to receive compensation, Deputy Commissioner deposits the compensation amount in a deposit account in the Public Account of the Republic and Deputy Commissioner acquires the land. But if any person complains about the ownership of the land, with appeal, he/she will be able to collect the amount from Deputy Commissioner. There is no Fixed time for this.	Deputy Commissioner
<b>Section 11 (1)</b>	Deputy Commissioner awards the compensation to entitled parties within 60 days of receiving the deposit from the requiring agency/person.	Deputy Commissioner
<b>Section 12</b>	When the property acquired contains, standing crops cultivated by bargadar (shareholders), such portion of the compensation will be determined by the Deputy Commissioner and will be paid to the bargadar in cash.	Deputy Commissioner

According to the initial field screening, no tribal people are expected to be affected by the project. However, if tribal people are identified during project implementation, a separate IPP plan will be prepared following the guidelines of ESS7 and thus detailed legal framework will be described.

#### Voluntary Land Donation (VLD)

There are no specific guidelines on voluntary land donation in ARIPA 2017. The project will discourage land donation. However, during stakeholder consultations, the local people expressed that they normally donate the land for construction of rural roads. If local people are interested to donate land voluntarily, voluntary land donation procedures and steps described in ESS-5 must be followed. If donated land is used in this program, LGED must demonstrate that:

- The potential donor or donors have been appropriately informed and consulted about the project and the choices available to them.
- Potential donors are aware that refusal is an option and have confirmed in writing their willingness to proceed with the donation.
- The amount of land being donated is less than 10 of the potential donor's land holding and that it would not have significant impact on their livelihood
- No household relocation is involved.
- The donor is expected to benefit directly from the project; and
- For community or collective land, donation can only occur with the consent of individuals using or occupying the land. LGED will maintain a transparent record of all consultations and agreements reached.
- All consultations and documentation procedures regarding the donation must be well documented and preserved.

#### The World Bank Environment and Social Standards

Since October 2018, all World Bank Funded Investment Project Financing (IPF) are required to follow the Environmental and Social Framework (ESF) consisting of ten (10) Environment and Social Standards (ESS). These ESSs set out their requirement for the borrowers relating to the identification and assessment of environmental and social risks and impacts associated with any project. The ESSs support the borrowers in achieving good international practice relating to environmental and social sustainability, assist them in fulfilling their national and international environmental and social obligations, enhance transparency and accountability and ensure sustainable development outcome through ongoing stakeholder engagement. Among the 10 standards, ESS5 on Land Acquisition, Restrictions on Land Use and Involuntary Resettlement recognizes that project-related land acquisition and restrictions on land use can have adverse impacts on communities and persons. LGED has prepared this RAP following the guidelines suggested under ESS5.

#### Objectives of ESS 5

- To avoid involuntary resettlement or, when unavoidable, minimize involuntary resettlement by exploring project design alternatives.
- To avoid forced eviction.

- To mitigate unavoidable adverse social and economic impacts from land acquisition or restrictions on land use by: (a) providing timely compensation for loss of assets at replacement cost and (b) assisting displaced persons in their efforts to improve, or at least restore, their livelihoods and living standards, in real terms, to pre-displacement levels or to levels prevailing prior to the beginning of project implementation, whichever is higher.
- To improve living conditions of poor or vulnerable persons who are physically displaced, through provision of adequate housing, access to services and facilities, and security of tenure.
- To conceive and execute resettlement activities as sustainable development programs, providing sufficient investment resources to enable displaced persons to benefit directly from the project, as the nature of the project may warrant.
- To ensure that resettlement activities are planned and implemented with appropriate disclosure of information, meaningful consultation, and the informed participation of those affected.

#### Applicability of ESS 5

ESS5 will apply as the direct social and economic impacts of a project that are permanent or temporary and are caused by the involuntary taking of land resulting in (i) relocation or loss of shelter; (ii) loss of assets or access to assets; (iii) loss of income sources or means of livelihood, whether or not the affected persons must move to another location; or (iv) the involuntary restriction of access to legally designated parks and protected areas resulting in adverse impacts on the livelihoods of the displaced persons. The ESS5 also applies in case any subproject activities found as 'linked' or 'associated facility'. This ESS requirements and provisions apply to all components of LGED that result in involuntary resettlement, regardless of the source of financing. Non-applicability of ESS5 is attached with Annex 5. This ESS applies to permanent or temporary physical and economic displacement resulting from the following types of land acquisition or restrictions on land use undertaken or imposed in connection with project implementation:

- (a) Land rights or land use rights acquired or restricted through expropriation or other compulsory procedures in accordance with national law.
- (b) Land rights or land use rights acquired or restricted through negotiated settlements with property owners or those with legal rights to the land, if failure to reach settlement would have resulted in expropriation or other compulsory procedures.
- (c) Restrictions on land use and access to natural resources that cause a community or groups within a community to lose access to resource usage where they have traditional or customary tenure, or recognizable usage rights. This may include situations where legally designated protected areas, forests, biodiversity areas or buffer zones are established in connection with the project.
- (d) Relocation of people without formal, traditional, or recognizable usage rights, who are occupying or utilizing land prior to a project specific cut-off date.

- (e) Displacement of people as a result of project impacts that render their land unusable or inaccessible.
- (f) Restriction on access to land or use of other resources including communal property and natural resources such as marine and aquatic resources, timber and non-timber forest products, fresh water, medicinal plants, hunting and gathering grounds and grazing and cropping areas.
- (g) Land rights or claims to land, or resources relinquished by individuals or communities without full payment of compensation; and
- (h) Land acquisition or land use restrictions occurring prior to the project, but which were undertaken or initiated in anticipation of, or in preparation for, the project.

**Forced eviction:** LGED will not resort to forced evictions of affected persons. The exercise of eminent domain, compulsory acquisition or similar powers by DC will not be considered to be forced eviction providing it complies with the requirements of ARIPA 2017 and the provisions of this ESS and is conducted in a manner consistent with basic principles of due process. Due process is including the following types of procedural protections:

- consultation with all affected household.
- adequate and reasonable notice for all affected persons prior to the scheduled date of eviction.
- information on the proposed evictions.
- where groups of people are involved, impartial observers will be presented during eviction.
- all persons carrying out the eviction will be properly identified.
- evictions are not to take place in inclement weather or at night, or during festivals or holidays unless the affected persons consent otherwise.
- provision of legal remedies; and
- Provision, where possible, of legal aid to persons who need it to seek redress from the court.

Gaps Between ESS5 and ARIPA 2017 and Gap Filling Measures

The following are the key gaps of the ARIPA, 2017 vis-a-vis the World Bank ESS5 are presented in Table below

**Table 47: Gaps between GOB policies/act and ESS5**

Sl.	Gaps between WB ESS 5 and GOB ARIPA Gap-filling measures/actions taken in this Project No 2017	
1	Gaps with regard to avoidance and minimized project impacts	The project designs adopted aimed to minimize impacts and adjusted tracks and station design further to reduce impacts and risk.
2	ARIPA 2017 does not require the preparation of resettlement plan or resettlement action plan (RAP);	RAP/s will be prepared for all sub-projects interventions and without the approval of RAP/s by the bank, construction works will not be started.

3	ARIPA 2017 recognize title owners only; informal settlers are not covered. DC declare cut-off date only for titleholders	All affected persons including titled, non-titled, encroachers will be identified for the compensation and assistance at full replacement cost Cut-off date for non-title holder will be consider the date of census survey.
4	Existing acts and methods of assessments do not ensure full replacement costs and transitional support	If the compensation according to the ARIPA 2017 do not meet the replacement cost, additional top-up payments will ensure replacement cost at current market price together with transitional support
5	Consultation with affected communities not legally required under ARIPA 2017	Extensive consultations will be carried out during all phases of the project. A separate SEP will be prepared.
6	The affected landowners can object to the acquisition in the beginning, but once hearing is done and settled, there is no scope of further complaint during the acquisition process.	There is a provision of four-tier grievance redress mechanism in the project. 1 <sup>st</sup> level GRC is local GRC (LGRC), 2 <sup>nd</sup> level is district GRC, 3 <sup>rd</sup> level is PIU level and final are PSC level. People will first approach to LGRC and will request to forward case to district GRC if not settled at LGRC. If required, GRC will be forwarded to 3 <sup>rd</sup> and 4 <sup>th</sup> Aggrieved person may go to court at any level of grievance mechanism for verdict.
7	Relocation assistance or support allowed for tittle holders only under ARIPA 2017.No support is allowed for the squatters/illegal occupants	Affected households and businesses will receive relocation assistance and support from the project irrespective of titled, non-titled, encroachers etc.
8	Income and livelihood restoration assistance is restricted only to additional 100 compensation	The project benefits include income and livelihood restoration, including training for alternative incomes, and seed grants for small businesses. Vulnerable people will be also included livelihood restoration program
9	There is no policy against land restriction and force eviction	Forced eviction and land restriction are not allowed in this project. However, the exercise of eminent domain, compulsory acquisition or similar powers by DC will not be forced eviction providing it complies with the requirements of ARIPA 2017 and the provisions of this ESS, and is conducted in a manner consistent with basic principles of due process

10	ARIPA 2017 do not consider / recognize impacts imposed by the associate facilities. The act even does not explicitly cover restriction of access as an impact that would require compensation or resettlement	A common approach will be taken, and impact and risk assessment will be conducted for the associated facilities as well. Impact and risk assessment will be also conducted for any kind of “restriction of access” by the project.
11	ARIPA 2017 does not have any provision to give special attention to the vulnerable groups like women, disables, ultra-poor or disadvantaged group	Special attention will be taken by the project for the vulnerable groups for i.e., additional grant, livelihood training, job opportunities during construction etc.
12	There is no provision for voluntary land donation	ESS5 clearly describes voluntary land donation procedures.

LGED will ensure implementation of the followings for different interventions:

**Project design:** LGED will try to avoid involuntary land acquisition, voluntary land donation or restrictions on land use. For this purpose, LGED will consider feasible alternative project designs to avoid or minimize land acquisition or restrictions on land use, especially where this would result in physical or economic displacement. The overall principle will be to balance the environmental, social, and financial costs and benefits, while paying particular attention to impacts on the women, poor and vulnerable.

**Compensation and benefits for affected persons:** All lands proposed to be acquired, requisitioned, affected structures, trees, business, community property and crops under the LGED program will be compensated as per replacement cost consistent with both government ARIPA 2017 and ESS 5. When land acquisition or restrictions on land use (whether permanent or temporary) cannot be avoided, LGED will offer affected persons’ compensation at replacement cost, and other assistance as may be necessary to help them improve or at least restore their standards of living or livelihoods to the pre-project level. Compensation standards for categories of land and fixed assets will be disclosed and applied consistently. Compensation rates may be subject to upward adjustment where negotiation strategies are employed. In all cases, a clear basis for calculation of compensation will be documented, and compensation distributed in accordance with transparent procedures.

**Public services and facilities:** Public services and facilities interrupted and/ or relocated due to relocation will be fully restored and re-established at their original location or a relocation site. All compensation, relocation, restoration and rehabilitation provisions of this RAP are applicable to public services and facilities. These include but are not limited to schools, health centers, parks, community centers, local government administration, water supply, shrine and graveyards. However, for graveyard, the consent of the religious persons, local persons as well and local administration will be sought to mitigate the impact. Impacts on religious sites will be avoided as much as possible.

**Vulnerable PAPs:** All vulnerable PAPs including female headed, disabled-headed, elderly-headed and poor household etc. are entitled to livelihood restoration/ improvement support in the form of cash, job-placement, and additional financial support in the form of grants for investments in business or re-employment related equipment and buildings, as well as organizational and logistical support to establish the PAP in an alternative income generation activity.

**Small ethnic communities:** During initial screening and consultation, no small ethnic communities are identified in the potential project areas. However, LGED will conduct social surveys including census and if any household belonging to small ethnic communities are found affected, ESS7 will apply. ESS7 will be implemented through development of a detailed IPP with the provision of free, prior and informed consent as appropriate. Even, if tribal people are affected with the associate facilities detailed IPP will be also prepared.

**Affected Women and Female headed households :** To ensure a clear understanding and due consideration of specific relocation and/ or resettlement impacts on displaced women and to safeguard their livelihoods, specific provisions for women will be adopted for the resettlement process, including (i) enumeration of all women and, if applicable, of their status as heads of household or otherwise vulnerable persons; (ii) collection of gender disaggregated socio-economic data; (iii) consultation of women in joint or separate meetings; (iv) due consideration of grievances lodged by women; and (iv) provision of compensation and/ or new titles to women if they are titled or recognized owners of lost assets, and provisions of restoration and rehabilitation measures to women, if households are female headed or women's livelihood is directly concerned. The RAP for relevant activities will detail the scope of impacts on women and where required gender action plans will be prepared, implemented and monitored within or outside RAPs.

**Community engagement:** LGED will engage with affected communities through the process of stakeholder engagement described in ESS10 on Stakeholder Engagement and Information Disclosure. Decision-making processes related to resettlement and livelihood restoration will include options and alternatives from which affected persons may choose. Disclosure of relevant information and meaningful participation of affected communities and persons will take place during the consideration of alternative project designs, and thereafter throughout the planning, implementation, monitoring, and evaluation of the compensation process, livelihood restoration activities, and relocation process.

**Grievance mechanism:** The LGED will ensure that a grievance mechanism for the project is in place, in accordance with ESS10 as early as possible in project development to address specific concerns about compensation, relocation or livelihood restoration measures raised by displaced persons (or others) in a timely fashion. A separate GRM for the management of SEA-SH and labor will be formed with the guidelines of ESS 4 and ESS 10. Where possible, such

grievance mechanisms will utilize existing formal or informal grievance mechanisms suitable for project purposes, supplemented as needed with project-specific arrangements designed to resolve disputes in an impartial manner.

**Planning and implementation :** Where land acquisition or restrictions on land use are unavoidable, LGED will, as part of the environmental and social assessment, conduct census, inventory of losses(IOL) and socio-economic survey (SES) to identify the persons who will be affected by the project, to establish an inventory of land and assets to be affected, to determine who will be eligible for compensation and assistance, and to discourage ineligible persons, such as opportunistic settlers, from claiming benefits. The social assessment will also address the claims of communities or groups who, for valid reasons, may not be present in the project area during the time of the census, such as seasonal resource users. In conjunction with the census, the LGED will establish a cutoff date for eligibility. Information regarding the cut-off date will be well documented and will be disseminated throughout the project area at regular intervals in written and (as appropriate) non-written forms and in relevant local languages. This will include posted warnings that persons settling in the project area after the cutoff date may be subject to removal.
